## Canadian Contracts Not Hurt By Dollar Pact

Gets Pakistan Post

Sir Laurence Graffey-Smith, 55, has been appointed the first High Commissioner to represent Great Britain in the new Dominion of Pakistan, India. A veteran diplomat, he has spent most of his career in the Moslem countries of the Near East.

### LATEST

#### Corn, Oats Zoom

CHICAGO (AP) — Corn and oats advanced to record highs on the Board of Trade today as mid-western grains continue to deteriorate from lack of moisture. September corn sold at \$2.45, beating the high for any corn future set earlier this month at \$2.42. September oats sold at \$1.08, beating the previous record for any oats future made at \$1.08 in May, 1920.

#### Claims Milk Record

SULLIVAN, B.C. (CP) — Charles Schultz, farmer in this Lower Fraser Valley community today claimed a world's milk record for his six-year-old cow, Ralder Gwen's Pearl No. 23441. The cow tops the latest record of production honor roll of the Guernsey Breeders' Association with a total of 16,626 pounds of milk and 861 pounds of butterfat in a 305 day period of twice daily milking. The milk tested 5.15 per cent.

#### I.T.O. Changing Rules

GENEVA (Reuter) — The conference of the International Trade Organization here today considered a revised charter, drawn up to provide the I.T.O. and its members with rules and regulations to enable it to function successfully.

#### Livestock Forbidden Meat-Hungry Berliners

BERLIN (AP) — Meat-hungry Berliners may no longer keep pigs, goats or other livestock on the balconies or in basements of their homes, the city government ordered today.

The ordinance provides that all purchase, sale or barter of livestock must be reported to district offices within three days, or unreported animals will be confiscated without compensation. The purpose of the order is to apportion scarce fodder only to commercial livestock raisers.

### 5 Vancouver Steel Plants Picketed As 350 On Strike

VANCOUVER (CP) — Picket lines were established today as steelworkers in five Vancouver plants went on strike following refusal of union workers to accept an offer from operators of a six cents an hour pay boost. The workers demand wage increases of 12½ cents an hour.

Union officials said 350 men were on strike and that another 200 plant employees had refused to cross the picket lines.

Plants involved are the Dominion Bridge Co., Vancouver Machinery Depot, Vancouver Iron Works, the Ross and Howard Iron Works and the Vancouver Engineering Works.

The workers, members of the United Steelworkers of America (C.I.O.), refused to accept the operators' offer of a six cents an hour pay boost. The union demanded 12½ cents.

### Fruitless Tips Balk Police In Hunt For Bandits

OTTAWA (CP) — Ontario and Québec Provincial Police, dog-tired from a hot chase for three escaped Kingston Penitentiary convicts, were empty-handed today and some expressed doubt the dangerous trio had even been in the Pontiac County area heavily-armed squad cars had fruitlessly combed.

The intensive manhunt, which drew some 150 Ottawa and Montreal district police to the Chapéau area, 100 miles northwest of here, had degenerated today into a single squad car chasing the tag-ends of fruitless "tips" which kept police harried in the two-day search.

Meanwhile one high Québec Provincial Police officer said he thought the three long-term prisoners who saved their way out of the Kingston Penitentiary Monday were not in the region, although they might have passed through.

At Montreal, Capt. J. A. Quen-

neville of the Québec Provincial Police cast doubt on the report of a Chapeau service station operator, Alan Soucie, that the car bearing the criminals had passed through that Algonquin Island town.

The trio, considered criminals of the most dangerous type, are Ulysses Lauzon, of Windsor, Ont., serving a 37-year term for bank robberies; Donald (Mickey) McDonald of Toronto, serving a 17½-year sentence for hijacking a liquor truck and abducting its driver; and Nicholas Minille of Ottawa, serving 17 years on armed robbery charges.

### British Farmers Pushed Into Front Line Of Economic Fight

LONDON (CP) — Farmers were pushed into the front line of Britain's production battle today and were exhorted to grow more food in return for higher prices and other incentives.

The government's new program for agriculture, drawn up in the midst of the dollar crisis, promises farmers priorities in equipment and supplies and offers subsidies toward improving land and livestock and meeting increased costs of farming.

"The emphasis has been deliberately placed on dollar-saving products," Agriculture Minister Tom Williams said at a press conference. "Particularly important are pig meat, eggs, beef, mutton, cereals and linseed."

#### TO FARM MORE LAND

"The government's program is essentially one of reviving and expanding production of meat and eggs, restoring part of the wartime expansion of wheat and barley and adding to the crop

area no less than 400,000 acres of linseed."

"Agriculture, in conjunction with coal mining and key workers in development areas, will have the highest priority and the responsible ministers are taking all possible steps to provide for the needs of the industry."

The government drive calls on farmers to step up their output by 100,000,000 (\$400,000,000) within four years. The plan thus would ease the crushing burden of food purchases abroad which represent more than half of the United Kingdom's dollar imports.

The new rate of output would be 15 per cent above the highest peak reached during the war.

Williams eased the fears that many farmers had that the government contemplated nationalization of agriculture by saying farmers "now had the greatest opportunity in their lives without coercion to see what they can do for a country in desperate straits."

### Union Demands U.S. Steel Probe

DETROIT (AP) — The General Motors Corporation plan to cut production because of a reported steel shortage brought a demand today for a government probe of the steel situation from Walter P. Reuther, president of the United Automobile Workers (C.I.O.).

Hours after President C. E. Wilson of General Motors had announced the corporation would close some plants and curtail schedules in others during the last week of August or the first week of September, Reuther disclosed contents of a letter he had sent to President Truman,

### 2 U.S. Men Injured By Armed Chinese

SHANGHAI (AP) — Chief Petty Officer Orrin D. Perry of Portland, Ore., was beaten severely and a civilian employee wounded by 20 unidentified armed Chinese who waylaid their jeep today.

The navy said the assailants, wearing "unidentified uniforms," dragged Perry out of the jeep and beat him over the head with pistols and shot George J. Rott of Shanghai twice in the thigh.

Both men were robbed. Rott told authorities he thought one of "the soldiers was about to shoot Perry."

### Dutch May Resume Indonesian Action Failing U.N. Move

THE HAGUE (AP) — A high source said today "there can be no doubt" that Dutch action in Indonesia will be resumed on a large scale "if the Security Council, at its meeting tomorrow, should refrain from ordering the Indonesian Republic to cease their present hostility by which they violate the council's cease-fire order."

The source did not indicate what the direct objectives of new military action would be, but a drive to Jogjakarta, the Republican capital, has been discussed in both The Netherlands and Indonesia.

Some political leaders expressed belief that resumption of military action might lead to a split in the Catholic-Labor coalition cabinet, possibly followed by formation of a national emergency cabinet. The powerful Catholic Party openly favors Dutch action on a large scale. The majority of the second-largest party, Labor, opposes this.

### Inspection In Italy

Under investigation at present is the U.S. military command in the Leghorn, Italy, area as a result of criticisms by Robert C. Ruark, Scripps-Howard columnist, who among other things, charged living conditions were miserable. Lt.-Gen. John C. H. Lee is commander. Above, centre, Gen. Lee is shown inspecting the 351st U.S. Infantry at Trieste. Maj.-Gen. Bryant Moore's Trieste command was praised by Ruark.

### Need Ideal Weather For Prairie Crops To Reach Estimates

WINNIPEG (CP) — Only with ideal weather can the three prairie provinces hope to harvest a wheat crop of 335,000,000 bushels, or 65,000,000 less than the 1946 crop, the Winnipeg Tribune said today in its sixth telegraphic crop report for the current season.

The newspaper said tentative estimates indicate Manitoba will harvest 54,000,000 bushels this year as compared with 61,000,000 a year ago; Saskatchewan 184,000,000 bushels compared with 208,000,000 last year and Alberta 97,000,000 bushels compared with 131,000,000 bushels in 1946.

In its first estimate of crop yields for the season, the Winnipeg Free Press said a wheat crop at 321,000,000 bushels can be expected from the prairies this year.

#### DROUGHT AND HEAT

Both surveys pointed to heat, drought, hail and other factors which combined to reduce materially western Canada's crop prospects in the last three weeks.

The Free Press said its correspondents estimated Saskatchewan's wheat yield at 171,000,000 bushels, with an overall average yield of 12.1 bushels to the acre.

Recent heavy rains have delayed harvesting in Manitoba large areas are under water, and farmers are unable to get on the land with their machinery. In Alberta cutting will not become general until tomorrow, the Free Press said. It now is in progress in Manitoba and Saskatchewan.

In the ninth of a series of 11 telegraphic reports on conditions throughout Canada, the Dominion Bureau of Statistics estimated the wheat crop in the prairie provinces at Aug. 19 at 340,000,000 bushels.

### Relaxing In Rio

U.S. Secretary of State George C. Marshall confers informally over champagne with Peruvian Foreign Minister Enrique Garcia Sayen during the Pan-American Conference in Brazil. Occasion was a reception given by Brazilian President Eurico Gaspar Dutra at the Capete Palace in Rio de Janeiro.

At an intersection near headquarters of the Mediterranean Theatre of Operations, U.S. army, in Leghorn, M.P. Thomas Mason, Norfolk, Va., directs traffic—a jeep and a bicycle. This is part of Gen. Lee's command. Ruark charged an entire company of negro M.P.s like this one had been put on traffic detail in Leghorn "to indulge the passion for saluting."

### Russia Uses Veto Twice, Keeps Austria, Italy Out

LAKE SUCCESS (AP) — Russia today used the veto twice in rapid succession to block action on the applications of Italy and Austria for membership in the United Nations.

These were the sixth and seventh vetoes cast this week, running the Russian string to a total of 18 against majority decisions in the Security Council.

On both Italy and Austria the vote was on Australian proposals to leave the decision up to the General Assembly, which will meet in New York September 16.

The vote on Austria was 8 to 1, with France and Poland abstaining.

The vote on Italy was 9 to 1, with Poland abstaining.

#### VOTE IS 1 TO 1

The action came after the Security Council had rejected Hungary's application for U.N. membership by a vote of 1 to 1, with nine abstentions.

Soviet Delegate Andrei A. Gromyko argued that the resolutions on Austria and Italy were violations both of the Potsdam agreement and of the U.N. charter. He also argued that Italy and Austria under the Potsdam agreement, could not be considered for membership until the peace treaty enters into force.

The council opened its session by a quick vote on Hungary.

Only Syria voted in favor of admitting the former Axis satellite. The United States cast the negative vote.

Hungary thus fell far short of the necessary seven affirmative votes out of the 11, including the concurrence of all the veto-holding Big Five powers.

Most delegates, including Russia, contended no action would be taken on the admission of any of the ex-enemy states until after the peace treaties entered into force.

Herschel V. Johnson, United States deputy delegate, opposed Hungary on the ground the Washington government had "serious doubts" as to the willingness or the ability of the present Communist-dominated regime to fulfill its obligations under the U.N. charter.

### Pound Up 1-4 Cent

NEW YORK (CP) — The Canadian dollar was unchanged at a discount of eight per cent in terms of United States funds in midday foreign exchange dealings today. The pound sterling was up ¼ at \$4.03.

## Britain Told Dominion About Deal With U.S.

By Canadian and Associated Press

Canada may continue to depend upon a flow of United States dollars or gold from the United Kingdom in payment for British purchases in this country, Finance Minister Abbott indicated today in a statement at Ottawa on the complex sterling convertibility question.

British action to restrict the convertibility of sterling, he said, "does not alter" the financial arrangements between Canada and the United Kingdom under which British purchases are financed by drawings on the \$1,250,000,000 Canadian loan and partly by payment of United States dollars or gold.

This set at rest fears expressed in unofficial circles that Britain's action, taken Wednesday to conserve her dwindling supply of American funds, would mean the end of the badly-needed flow of U.S. dollars to Canada.

Although Canadian officials never have issued official figures on the amount of U.S. dollars received from Britain, it has been placed by British officials at \$220,000,000 during the last year. Latest available Canadian trade statistics show that the payments totaled \$134,000,000 during the last six months.

In an official 250-word statement aimed at clarifying the new sterling position as it applies to Canada, Mr. Abbott said:

"I wish to emphasize that the action taken by the United Kingdom yesterday to restrict transferability of sterling between countries outside the sterling area does not alter the financial arrangements between Canada and the United Kingdom under

which part of Britain's purchases in Canada if financed by drawings on the Canadian loan and partly by the payment of United States dollars or gold.

"Such arrangements between the authorities in the two countries do not depend upon the degree to which transfers of sterling are permitted."

He also made it clear that the action did not "in any way" affect trade and other transactions between the United Kingdom and Canada and other parts of the sterling area.

The statement continued:

"It is understood that Canadians may to the same extent as hitherto continue to accept sterling or make payment in sterling in transactions with residents of sterling areas."

"The Foreign Exchange Control Board will continue to give Canadian dollars for any sterling which under British regulations is allowed to be paid into Canadian accounts."

### Those Affected Should See Banks

"Any Canadian who may be concerned with such a transaction should consult his bank or the Foreign Exchange Control Board."

Mr. Abbott's statement confirmed that British and Canadian government representatives had conferred on the British plan to restrict the convertibility of sterling.

"In the consultations which have been taking place," he said, "the representatives of the United Kingdom government have explained fully the measures which their government have felt obliged to take to restrict the transferability of sterling between countries outside the sterling area in order to avoid the recent excessive drain on their exchange reserves."

"The Canadian government recognized the necessity for this emergency action and welcomed the assurance given on behalf of the British government that the measures now taken are temporary and emergency measures only and do not indicate any

change in the British government's belief in the desirability as a long-term objective of full convertibility which is fundamental to British financial policy."

In a London radio address to the British people, Hugh Dalton, Chancellor of the Exchequer, said persons who receive pounds in payment for business transactions with British firms or the government or in foreign exchange dealings, "will no longer have an automatic right, as at present, to change this sterling into dollars."

The doleful story of Britain's financial struggle was told simultaneously in Washington by Sir Wilfrid Eady, British treasury officer who heads the negotiating mission in the U.S.

"Canada's position will be seriously affected by what we have done," Sir Wilfrid told a press conference. "We are under the same obligations to Canada as we are to the United States, and negotiations are going forward there at this moment."

### Loan Down To \$400,000,000 Soon

In Washington, U.S. treasury officials said withdrawals by Great Britain will reduce to \$400,000,000 by Aug. 29 the amount of credit remaining from her original \$3,750,000,000 loan from the U.S.

The loan balance already had been reduced to \$850,000,000 when the new Anglo-American talks began here Monday to consider emergency steps aimed at relieving Britain's current economic crisis.

Only Wednesday the British agreed—with U.S. approval—to

of British power will perhaps be supplied by atomic energy."

The report, the Times said, "deals primarily with the clash between the demand for the most rapid development of atomic power for industrial purposes and the demand for the production of atomic bombs," suspend temporarily the free exchange of dollars for pounds in trade with other countries. It was learned this step was necessitated by dollar demands which had necessitated the use of \$232,000,000 a week from the \$3,750,000,000 U.S. credit.

A treasury official told a reporter that permission for Britain to make withdrawals below the remaining \$850,000,000 stemmed from a need for \$450,000,000 to pay for goods on order in the United States.

One request for a \$150,000,000 withdrawal already has been made. Other requests for withdrawals in the same amount will be made Aug. 25 and 29, cutting the credit balance to \$400,000,000.

### Atom Power Plant Likely In 2 Years

NEW YORK (CP) — The New York Times today quoted a report by the scientific advisory committee of the British Trades Union Congress as saying the first experimental power plant running on atomic energy may be working in the United States within two years.

In a dispatch from London, the Times said the report stated that within five years engineers "should be in a position to set about designing reliable units for large-scale power stations, and that by 1970 a large proportion

### 50 Die In Rioting

KARACHI, Pakistan (Reuter) — Fifty persons were killed and 40 injured in rioting at Quetta, Baluchistan, Wednesday night, it was reported today.

## West Kootenay Faces Labor Lack As Doukhobors Guard Homes

VANCOUVER (CP)—A serious labor shortage threatened the rich West Kootenay lumber industry today as hundreds of Doukhobor employees rushed to guard their homes against wild bands of firebugs — one reportedly led by a nude woman.

While police strove to quell the new wave of incendiary sweeping the Doukhobor settlements near Nelson, lumber workers entrenched themselves in their homes to repulse the night raiders. Already more than a score of schools, homes and farm buildings have been put to the torch.

One lumber mill was closed, another five announced sharply curtailed production schedules and several other plants were reported operating with short staffs.

**ALL-OUT DRIVE POSSIBLE**

Possibility of an all-out police drive to smash the raiding bands was indicated in Victoria Wednesday night, as top officials of the B.C. Police announced a full

report of the latest outbreak of violence was being prepared for submission this week to the Attorney-General.

Exodus of the workers started Wednesday and was in full swing today as terror-stricken wives and children sent messengers to the mills calling on their menfolk to return and defend their homes.

Although little information has leaked out of the settlements about the night raiders, they are reported to swoop down on homes and schools in groups of 50 to 75, many of them naked.

A number of women are said to be included in the group, with a nude woman the leader of one band.

Cause of the recent outbreak remains a secret closely guarded by the strange religious sect that came from Russia in 1899. They prefer to seek out the incendiaries themselves. However, the fires have repeatedly been blamed on radical members of the Sons of Freedom who long ago broke from the rule of the

## Article Details Highway Problems

A 17-page article, illustrated with 30 fine photographs on the "Highways of British Columbia" is featured in the August issue of Canadian Geographical Journal. Robert J. S. Stead is the author.

He discusses at some length the peculiar and difficult problems faced in this province to construct highways because of the mountainous terrain of the greater area of B.C.

He also details the activities of the provincial government to provide funds for highway construction and the difficulties encountered during the war and postwar period to obtain men, machinery and necessary materials.

Followers of Peter (The Lordy) Verigin, original sect leader. He died in a mysterious train bombing in 1924.

Many Doukhobors, terrorized by the raiders, have appealed to Provincial Police and to Ottawa for aid, but police said they refused to reveal details of the raids.

## Victoria Sea Cadet Tells Of Travels In Overseas Trip

A brief glimpse of the overseas travels of a Victoria sea cadet is offered in a letter received by Col. Thomas Moore, manager of Prince Robert House, from P.O. Robert Rice, one of the two Vancouver Island sea cadets chosen to make a special tour overseas.

In his letter to Col. Moore, P.O. Rice writes: "Had a lovely trip across Canada. We picked up other boys along the way so you can see we would have fun."

"The Navy League in Montreal gave us a dinner and then we went swimming. In Halifax we had another banquet in our honor. We stayed at Stadacona for three days before traveling. "It was quite interesting on the Warrior, but they gave us P.T. three times a day beginning at 6 in the morning and also compulsory games."

"We landed at Greenock on the 8th (Aug. 8) and went by bus up around the Highlands near Loch Lomond and then to Rosyth, where we put up for the night. Next day we went to Edinburgh for a day of touring. Yesterday we traveled to Plymouth where we are now stationed aboard the cruiser Royalist. We stay here six days then go to Glasgow and back to Greenock. They have everything well arranged and down pat."

"As yet we haven't had many hours of leave but we're hoping for some here at Portsmouth and at London. "The boys are all swell and we get along pretty good together. "Food, clothing and other goods are quite high and most everything is strictly rationed, although the shelves seem well stocked."

**28 Yachts Missing On Race From Plymouth**

PARIS (Reuter)—Twenty-eight yachts, overdue at La Rochelle, France, since Tuesday on a voyage from Plymouth, England, today were feared either becalmed or lost.

The yachts left Plymouth Saturday morning to take part in the Plymouth-La Rochelle regatta, organized by the Royal Ocean Racing Club of Plymouth.

This year's regatta was the first since 1938 and large crowds of yachtsmen and holiday makers went to La Rochelle last week-end to greet the yachts.

Twenty-nine yachts were reported to have left Plymouth on Saturday. One arrived at La Rochelle after a 59-hour voyage.

Yachting authorities on the Vende and Brittany coasts posted special lookouts.

Among those awaiting the arrival of the vessels is ex-Marshall Petain, former Vichy Chief of State, who has a good view of the coast from his prison on the Ile d'Yeu.

**Steers Die Of Heat**

CHICAGO (AP)—Forty-four head of feeder steers dropped dead Wednesday from the heat on the nearby Robert Evans farm. The steers, each worth about \$240, were part of a shipment of 350 just received from Nebraska grass lands for fattening prior to consignment to the Chicago Stockyards.

**Alcoholics Anonymous** — The alcoholic, as distinguished from a normal drinker, is a person who drinks even when he doesn't want to and knows he shouldn't. Such compulsive drinking causes unhappiness and ruins careers. If this is your problem, then you may obtain help—freely and confidentially. Apply Victoria Chapter, Alcoholics Anonymous, P.O. Box No. 1, Victoria; P.O. Box No. 869, Duncan, B.C. \*\*\*

**A salvage collection for James Bay, Esquimalt and Gorge.** Phone E 3413. \*\*\*

**Britannia Branch picnic** — At Deep Cove, Aug. 23. Buses will leave 1616 Blanshard Street, front of Branch building at times arranged. All members who have tickets and specified times stay with arrangements. Times cannot be changed. Lists for tickets now definitely closed. \*\*\*

**Claret, Deep Cove.** Drive through the lovely Saanich Peninsula. Chicken luncheon, dinner or Devonshire cream tea, Phone Sidney 82-F. \*\*\*

**Do your housecleaning the easy way.** rent an electrolux by the week or day. Delivered. E 5584. \*\*\*

**Drop in at Ciro's after the dance for a late snack.** Now under new management, Mr. Wilbur Booth, formerly of Vancouver. That's Ciro's Cafe, 809 Yates Street. \*\*\*

## Weather

Weather today and tomorrow, valid until midnight Aug. 22:

Clear skies and light winds are general over the southern interior and southern coastal areas of B.C. this morning. Cloudy skies on the north coast extend as far south as northern Vancouver Island and variable cloudiness is reported throughout the central plateau. Frosts have again occurred in central B.C. Low for the province was 31 at Prince George. Some cloudiness will persist on the north coast and a few showers may be expected in central B.C. Fog patches will form over the low areas along the west coast during the night but skies over southern B.C. will remain clear. Temperatures are approaching the normal.

Vancouver and vicinity lower Fraser Valley—Clear today and Friday. Winds light. Little change in temperature.

Georgia Strait—Clear southern area today and Friday. Cloudy northern area clearing afternoon. Cloudy tonight becoming clear Friday morning. Winds light. Little change in temperature.

West Coast Vancouver Island—Clear southern area. Cloudy with a few showers northern area becoming clear late afternoon. Clear tonight and Friday. Fog patches along the low coastal area during the night lifting by noon Friday. Winds light. Little change in temperature.

## Blow At Russians As Chinese Order Dairen Port Closed

NANKING (AP)—China Wednesday ordered Russian-controlled port of Dairen closed "to all foreign shipping" and a spokesman said the government was studying closely frequent reports of Soviet ships from that city supplying Chinese Communist forces.

The government information director, Hollingston Tong, said China's executive Yuan had decreed that any vessel entering or leaving the port would be operating illegally in Chinese waters.

(China issued a white paper June 25 accusing Russian of failing to abide by her treaty with China and blocking Chinese entry into Dairen and Port Arthur ever since Japan's surrender.

(Dairen, only 17 miles from the big Russian naval base at Port Arthur, was designated a free port, open to shipping of all countries, under the Sino-Soviet treaty of August, 1945. It was to be administered jointly by China and Russia.)

Tong added that "Dairen, being a port under Chinese jurisdiction, should not be used by any foreign power."

## ANNOUNCEMENTS

**"Gauntlet to Overlord,"** by Ross Munro. The first full account of the Canadian army from its formative days in England to the end of the war. Get your copy of this book from the Marionette Library. E 1012. \*\*\*

## Salmon Fishing Better Than 1946, Behind 1945 Record

Report of the federal government's fishing department, today showed that salmon fishermen, while making catches well above those of 1946, have failed to make as rich a haul as during 1945.

Statistics issued today showed that the 1947 salmon catch had totaled 541,256 48-pound cases, compared with 434,657 cases up to the same date in 1946, and 910,804 cases at the same date in 1945.

The sockeye catch this year is the best recorded during the past six years except for the 1945 record hauls which at this date had produced 312,022 cases. To date this year 252,695 cases of sockeye have been canned.

The coho catch this year, totalling 58,611 cases, is well ahead of the 1946 coho catch of 41,903 cases at this date, but short by more than 11,000 cases of the 1945 catch.

While almost double the 71,400 cases caught at this time last year, the 1947 pinkies catch, now at 132,958 cases, is far short of the 1945 catch which totaled 451,209 cases at this date.

Chums canned this year total 86,000 cases, compared with 108,389 cases caught at this time last year. The canning of springs, now totalling 5,635 cases, is slightly less than last year's total for this date and canning of steelheads is also down, 1,832 cases having been produced to date this year compared with 2,708 at the same time last year. So far this year 4,524 cases of bluebacks have been canned, compared with 2,733 at the same time last year.

## Printers Urge Merger Of All Unions In U.S.

CLEVELAND (AP)—The A.F.L. International Typographical Union has called for "immediate steps" to unite the A.F.L., the C.I.O. and the railroad brotherhoods into one labor organization agreed Wednesday, because they who voted for the Taft-Hartley Labor Act.

Merger of all organized labor into one "mighty" organization was proposed, the I.T.U. convention agreed Wednesday because of "recent attacks on labor and labor unions, particularly the Taft-Hartley slave labor law."

A resolution to that effect was unanimously adopted by the 89th I.T.U. convention.

## I.W.A. Officials Protest U.S. Bar

VANCOUVER (CP)—Ernest Dalskog and Bert Melness, International Woodworkers of America (C.I.O.) executives, said Wednesday night they would appeal to U.S. Attorney-General Tom Clark following an American immigration department decision barring them entry into the United States.

The men were elected to represent the British Columbia region of the I.W.A. at the international convention set for Aug. 26 in St. Louis. Mr. Dalskog had previously been barred, but has been crossing regularly for executive meetings.

"This is rank discrimination," said Mr. Melness. "In the words of the 1913 Immigration Act, as amended, we were stopped because we belong to the Labor Progressive Party, which is alleged to distribute matter teaching opposition to organized government."

## Deaths Of Miners Accidental, Jury Finds

PIONEER, B.C. (CP)—A coroner's jury Wednesday night ruled that the three men killed in Monday's explosion in the 1,700-foot level of the Pacific Great Eastern gold mine near here met an accidental death due to a combination of concussion and carbon monoxide poisoning.

The jury, composed of fellow-miners, found that a week-end shutdown of the mine just prior to the accident "caused a dangerous condition to develop underground," and that the men proceeded to work without proper precautions.

Bodies of the men, Vernon Wright of Vancouver, Norman Ryan of Halifax and Alexander Gelles of Drummondville, Que., had been brought out by a special rescue squad earlier Wednesday.

**VEL® works magic!**

**CUTS DISHWASHING TIME 3 WAYS**

- VEL penetrates, cuts grease, loosens dirt faster.
- VEL eliminates wiping... dishes, glasses gleam no streaky film to wipe away.
- No dishpan ring with VEL... no soap scum to scour away.

**HERE'S ALL YOU DO...**

Just put a few teaspoonfuls of VEL in your dishpan (about half as much as soap). Add water. VEL gives the water amazing new cleaning power that lasts long after suds dissolve. VEL removes grease faster, more completely than soap—in hardest water. Dishes, glasses sparkle without the touch of a towel. And VEL is milder to hands, free from soapy alkalis!

**VEL keeps stockings sheerer, lovelier!**

Says Claire Honeyford, Toronto.  
"My nylons stay lovelier longer now I wash them with gentle VEL. I put just a teaspoonful of VEL in the basin, add lukewarm water... dip and squeeze a few times, and VEL washes nylons and undies fresh and sheer as new... no dulling soap film!"

**VEL Quality Guaranteed by COLGATE**

## Says High Speed, Silent Fog Signal Caused Collision

HALIFAX (CP)—The collision between the destroyer Micmac and the freighter Yarmouth County July 16, which claimed the lives of 11 navy men could have been avoided if the destroyer had been blowing her fog signal and going at a slower speed, Capt. Norman E. Smith, master of the 10,000-ton freighter told the inquiring commissioner Wednesday.

Continuing on the witness stand after giving testimony Tuesday that the destroyer had neither been seen nor heard before the collision off Halifax Harbor, Capt. Smith said the freighter's whistle had been blowing.

An adequate lookout was being kept on his ship, he said. If the Micmac had been giving the fog signal and proceeding at a reduced speed, Capt. Smith claimed, the two ships would have had time to manoeuvre and avoid the fatal crash.

## Sees No Slump

## Yank Marries Peace Envoy's Daughter

Frank White, 27, former U.S. army lieutenant of Rockwood, Pa., and his bride, Pia Kurusu, daughter of Saburo Kurusu, "peace envoy" to Washington at the time of the attack on Pearl Harbor, leave the U.S. consulate following their wedding at Yokohama, Japan. The groom is attached to Gen. MacArthur's repairation section.

## Lord Chancellor To Visit Canada

OTTAWA (CP)—Lord Jowitt, Britain's Lord Chancellor, will visit Canada and the United States in September. Returning from Britain today,

Reconstruction Minister Howe said the Lord Chancellor would attend the annual meeting of the Canadian Bar Association in Vancouver and the United States Bar Association in Cleveland next month.

## Britain Reports Export Progress

LONDON (AP)—Deputy Prime Minister Herbert Morrison announced Wednesday signs of "progress"—record July exports and increased coal production—in the battle for Britain's economic recovery.

Provisional export figures for July, Morrison told a press conference, totaled \$441,200,000, "the highest level since November, 1920 and, apart from that month, probably the highest ever recorded in peacetime."

## 3 U.S. Soldiers Held By Russians

SEOUL, Korea (AP)—Three United States army enlisted men have been held by the Russians in northern Korea since Aug. 12 despite official American protests, army intelligence officers disclosed Wednesday.

They said the Russians had refused an explanation and had ignored two protests demanding their release.

Intelligence officers said the three went to the Russian-occupied town of Yohyon-Ni to inspect telephone lines connecting U.S. headquarters here with Russian headquarters at Pyongyang. A Russian officer told them Soviet headquarters had ordered the three held for investigation.

## Bodies Brought Out

PIONEER, B.C. (CP)—The bodies of the three miners killed in Monday's methane gas explosion in the Pacific Eastern Mine here were brought to the surface today by rescue squad members from Nanaimo. The victims were Vernon Wright of Vancouver, Henry Ryan of Halifax, and Alexander Gells of Drummondville, Que.

## New Dominion's Colors Shown

Displaying the green and white flag of Pakistan, new dominion now freed of all British control, is Habib Ibrahim Rahimtoola (right), first high commissioner, upon his arrival at London airport. Mohammed Ali Jinnah, leader of the Moslem fight for independence, is Governor-General of the new state.

## B.C. Apple Growers Expect To Find Large Market In U.S.

VANCOUVER (CP)—British Columbia apple growers, their major overseas trade in dollar-short Britain cutoff, today looked southward to the United States as a market outlet for a good portion of the 1947 yield of more than 7,000,000 bushels.

Fruit from the famed Okanagan valley orchards is pouring into packers, from where it will move to domestic and export markets.

## PLAN PUBLICITY

A selling campaign in the United States, where the government has granted permission for entry of 3,750,000 bushels of Canadian apples, will be started immediately.

"It is up to us to sell the apples," said John G. West, executive of the B.C. Tree Fruits Ltd., marketing agency for the thousands of growers who last year sold 2,500,000 bushels to Britain and 1,000,000 to United States buyers.

The U.S. government has approved admission of Canadian apples, but has no purchasing plans. Purchase will be up to the individual American buyer.

Mr. West said today, however,

that B.C. growers would likely get the largest share of the exports as the west coast packers concentrate on the boxed apple trade, a marketing method favored by American buyers. In past years, B.C. has had 90 per cent of the U.S. market.

## COMPETITION FORESEEN

With the British market lost due to the economic crisis, stiff competition for the U.S. trade is expected from the apple producing provinces of Ontario and Nova Scotia.

Eastern growers may seek government assistance in marketing in the Republic, but the B.C. producers will not seek aid from federal authorities.

B.C. growers also have a big market on the Canadian prairies, and other export outlets in South America, Palestine, Egypt, China, the Philippines and South Africa.

The crop this year is estimated at 7,700,000 bushels, a drop of 1,300,000 bushels from the bumper yield of 1946.

## Manitoba Expects \$1,000,000 Beet Crop

WINNIPEG (CP)—Manitoba's 700 sugar beet growers are optimistic that, given a dry September, they will harvest \$1,000,000 crop this year.

They are all the more excited over the prospect because up to a few weeks ago the sugar beet situation in the province looked grim, with prospects of a crop failure imminent.

Today, however, after the warm, rainy weather of the last few weeks, the beets have grown to good size, with only the sugar content to be decided. Normally it ranges around 16 or 17 per cent and if September is dry growers say the percentage will be high.

A \$1,000,000 crop this year, while not expected, would be only slightly better than last year's, at that, with the Manitobans receiving almost that figure for the 97,800 tons harvested in 1946. The average price paid then was \$11 an acre.

## Toronto Meeting Studies World Weather Scheme

TORONTO (CP)—Establishment of a world-wide scheme for reception by radio of coded weather reports from ships at sea is one of the subjects under consideration at the month-long conference here of the International Meteorological Organization.

Discussion of this scheme has been assigned to the conference commission on maritime meteorology. Since most of the sea reports now available are taken by voluntary observers, improved methods of making observations and of training men to make them are being discussed.

The same commission also is dealing with marine climatology, reporting by ships of the presence of sea ice, observations of ocean waves and surf, provision of weather information for shipping and the production meteorological publications for use by seamen.

The uses of weather forecasting on land were also studied, as discussions continued in the commission on agricultural meteorology, first established in 1913. Representatives of some 20 countries tackled the difficult problem of practical aid to farmers.

Phenology, or the relation between climate and plants, artificial weather for climate "greenhouses," forecasts and soil erosion and plant diseases, as well as the forecasting and overall presentation of agro-meteorological data, were among subjects discussed.

## Kinsmen In Convention

MONTREAL (CP)—Some 550 delegates from across Canada are attending the three-day convention of the Association of Kinsmen Clubs which got under way here today. The council is meeting under the chairmanship of William Kirby of Moncton, N.B., national president of the association.

## 12 Canadians To Attend Pacific Relations Conference

TORONTO (CP)—Twelve Canadians representing the Canadian Institute of International Affairs will attend the 10th plenary conference of the Institute of Pacific Relations at Stratford-on-Avon, Sept. 5-20, it was announced today by Douglas A. MacLennan, national secretary of the C.I.A.A.

The conference will discuss economic and social reconstruction in the Far East and will also be attended by some 120 unofficial representatives from Britain, Canada, South Africa, Australia, New Zealand, China, the United States, the Philippines and France.

Chairman of the Canadian group will be Professor Edgar McInnis, internationally-known Toronto historian and the institute's public education chairman.

Associated with Prof. McInnis will be R. M. Fowler of Montreal, institute president and president of the Canadian Pulp and Paper Association; Dr. Alexander Brady, prominent political scientist of Toronto; Mr. Justice J. B. Coyne, Winnipeg, a past president of the C.I.A.A.; J. C. Patterson, European general manager of the Canadian Pacific Railway; and T. W. Moodie, retired superintendent of the Canadian National Railways in British Columbia.

Others in the Canadian delegation include Sydney Scott, managing editor of the Vancouver Daily Province, and Graham Spry, agent-general for Saskatchewan in London.

## Beautiful Girls Crowd Hamilton

HAMILTON, Ont. (CP)—There was plenty of pulchritude around Hamilton today with 23 entries officially filed and more beauties on their way here for the city's Miss Canada pageant Friday.

Latest entrants are Caroline Ross of Ottawa; Mary Cimba, blonde, 21-year-old Czechoslovakian-born Hamilton student at the Toronto Conservatory of Music, and Lillian Padell, 19-year-old Toronto model who was born in Winnipeg.

Also in the contest are Rosemary Hurst, Victoria May Queen and Tillie Fleming, who is "Miss Regina."

Almost 40 girls are expected to vie for the Miss Canada title, a \$1,000 City of Hamilton "scholarship" and a trip to Atlantic City in quest of the Miss America title.

To praise a whole social group is as foolish as snubbing the whole group. The only justice is to give each individual his due.

## DOLLARS AND POUNDS

AS THIS IS BEING WRITTEN THE GENERAL public of this country is awaiting Finance Minister Abbott's statement on the effect which Britain's suspension of sterling conversion is likely to have on Canada's external trade and the world's business as a whole. Under the practice in effect prior to the announcement of suspension of what is described as dollars-for-pounds convertibility, a country doing business with Britain and maintaining a sterling balance in London or New York was able to change sterling assets into dollars and use them to purchase goods in the United States. By the application of the terms of the loan, however, foreign countries which had a favorable trade balance with the United Kingdom could take their surplus pounds to the Bank of England and demand dollars. It was this stipulation which Washington insisted upon to induce Congress to approve the original agreement. But in view of the recent run on the British treasury by several countries, including Argentina, by converting sterling into dollars, the London officials who are now in Washington point out that this development has imposed the double damage of draining Britain's treasury of dollars obtained under the provisions of the loan agreement and at the same time furnished other countries with added means to compete for American goods.

Regardless of whether any other government at Westminster could have done better than that which Mr. Attlee is trying to steer into calmer economic waters, this country is involved not only in the projected change in the operation of the Anglo-American loan arrangement, but also in all future trading plans that have been and still are under consideration by the Socialist administration's advisers in Whitehall. Our Department of Trade and Commerce at Ottawa, for instance, has pointed out with appropriate emphasis that one-third of Canada's income comes from the proceeds of external trading, and that any substantial loss occasioned by new currents in buying and selling conceivably would be reflected adversely in the fortunes of all Canadians. Under these conditions, therefore, it is not difficult to understand the concern which the officials at the national capital are manifesting as they watch the day-to-day changes in and adjustments of Britain's relations with the outside world. Nor should it be forgotten that when Britain's spokesmen informed the delegates to the International Trade Organization's meeting in Geneva the other day that the British government could not sign the multi-lateral tariff agreement—as now drafted—for at least another year, this country sustained a blow to its hopes in this regard which requires no specific emphasis.

## REALISTIC ACTION

AS A CONSTRUCTIVE CONTRIBUTION to the solution of Europe's displaced persons problem, the plan announced by Rt. Hon. C. D. Howe, Minister of Reconstruction, for aerial transport of thousands of the homeless to Canada will recommend itself to all who take a realistic view of this pressing issue. According to the minister, the transfer will begin this fall, starting after September, and between 2,500 and 3,000 may be flown monthly to new lives in this Dominion.

What that means to those who will be given the opportunity to set down their roots in this land of plenty requires little imagination. In this country they will be afforded the chance to resume honest occupations and expect from them legitimate rewards. As they become acquainted with Canadian ways, they will be in a position to assume the privileges and responsibilities of citizenship. And it will lie in their power to make very material contributions to the land that offers them a home and a substantial measure of security. Among their numbers will be skilled artisans as well as others with professional qualifications required to give greater strength to what is still a meagre population judged in terms of habitable land available in the Dominion.

It was not to be expected, of course, that the plan would win general approval. Russian charges have been made before the United Nations Economic and Social Council that the scheme is one to secure "cheap labor" for the Dominion. They would be less than human if the "fellow travelers" here failed to parrot that theme. But Canadians will note the reply given to this contention by Mr. Howe. In his words:

"They are protected by the Canadian labor laws. Their employment conditions are guarded just the same as those of other workers."

Much was made of the "cheap labor" argument when Mr. Ludger Dionne, M.P., brought 100 Polish girls to his factory in Eastern Canada. Succeeding discussions disclosed that the potential "sweated labor candidates" would be in positions so infinitely superior to those possible in the D.P. centres that no comparison could be made. Similarly with the displaced persons for whom air transport is now being arranged, Canada has much to offer them. Mr. Howe has indicated the protection they will be afforded by the law, and, while the call for

labor continues at its present level, there can be scant ground for complaint over the importation of those adrift in Europe.

The fact that material benefit can be expected from this immigration does not, in any way, detract from the humanitarian aspect of the proposal.

## A WELCOME IMPROVEMENT

THOSE WHO TRAVEL PICTURESQUE rural roads of this Island need no publicist to convince them of the natural beauties of the countryside. There are few spots where hills, trees, fields, sea, lakes or rocky prominences do not present a view the beauty of which is the envy of Canadians less fortunately situated. That Nature has outdone herself in providing us with the very best from her store of scenic treasures goes without question. In general the only flaws which mar the land-and-seascapes of this region are those which man himself has created. Billboards, rubbish-heaps, unsightly fences and yards, litter and other man-made liabilities combine to detract from the charms of the garden in which we have been placed.

Residents who appreciate these facts will give full support to Hon. E. C. Carson, Minister of Public Works, in his preparation of a new provincial code that will ban billboards and obstructions of numerous kinds which are hazardous to traffic or cause inconvenience to the public. Authority for the new regulations is contained in an amendment to the Highway Act which received the Legislature's approval at its last session. Under it, the government by order-in-council may fix the distance from any highway at which fences, and other obstructions may be placed. The regulations specifically cover shrubs, trees, signboards, hedges, buildings and other possible offenders.

The municipalities of the province are co-operating with the provincial department in working out details of the new regulations, and it is to be hoped that each will give extensive consideration to the problems within its boundaries. Discerning advertisers have long ago learned that when the public reaction to their effort is merely to remark, "Another cursed billboard", their money is being wasted by making their sales appeal at the expense of scenic beauty. But there are still many who have not realized the situation. To them the new regulations will bring enlightenment, and a commercial affront to highway users will have been removed.

## THE RUN IS ON

TO THE AVERAGE MAN THERE IS something mysterious in the unending instinct that guides the salmon, after its term of years in the salt seas, back to the stream in which it was spawned—a mystery, for that matter, the inner nature of which has not yet been solved by those who spend their lives in the study of such natural phenomena. Year after year, their cycle completed, the fish crowd up the rivers and into the lakes and streams where they originated, driven by the blind, relentless urge to fulfill their destiny.

The run of Sockeye salmon is on now. The fish are making their way 500 miles up the Fraser River to reach their destination. Others are swimming into the upper reaches of the Skeena, the Naas and other rivers along the British Columbia coast. Those Victorians who have witnessed the minor runs in past years in the Goldstream River will have an appreciation of the flashing, churning struggle upstream that can be stopped only by death.

The interference of man has done much to make that death premature. His nets, his dams, his power developments, his logging of the watersheds have spelled disaster for generations of salmon. But economic factors were successful where compassion failed. Today the run of the salmon is aided by temporary bans on fishing as the finny hordes sweep upstream. Ladders have been cut in the rocky barriers of the rivers; steps have been formed in the artificial walls of the dams; and every effort has been made to ensure that a maximum number of fish reach their spawning grounds. Aiding this program have been the studies conducted by the fisheries departments of the provincial and federal governments. The size of the runs in the various rivers is estimated each year, diseases are watched, water pollution is avoided, and a continuous campaign is conducted to ensure that the raw product of this important industry is not exploited to the point of extinction.

## HE SAT THAT ONE OUT

IF MRS. EVA DUARTE PERON, WIFE OF Argentina's president, is given to serious reflection, she will by now have some misgivings over the warmth of the particular sun in which she basks. She can contrast the flowery tributes accorded her in Spain with the hostility she encountered in Switzerland during her recent European tour. She has grounds for thought in the reactions which prompted her to abandon plans to visit Britain. And now that she is home again, she has another matter to occupy her attention. At the grand ball in her honor at Rio de Janeiro Tuesday night, the man who would have been the most spectacular attendant at that social gathering "sent his regrets" and declined the invitation. United States Secretary of State George C. Marshall worked on the radio address he was scheduled to deliver yesterday during those hours when he might have been dancing to the strains of a Brazilian orchestra. Perhaps the peoples of the democratic countries will not find it hard to discover a reason for his decision not to attend.

## Uphill Fight

By SAMMY BERACHA

FRANCE HAS MADE an enormous effort in the matter of foreign trade, and especially to increase her exports. The total value of her trade increased from an average of \$260,000,000 a month during the second quarter of 1946 to \$410,000,000 last June. The trade balance itself improved considerably since the percentage of the deficit compared with the total trade value dropped from 50 per cent at the beginning of last year to 20 per cent in June, 1947. That shows a definite tendency toward improvement in external trade and in righting the trade balance. Definite, yes, but still not enough for a country which has not the means to wait too long for the gradual recovery of her outside commerce.

IN FACT, the foreign trade deficit can be estimated at \$500,000,000 dollars for the first half of the year. For each of the two previous six-month periods it was \$600,000,000. The decrease is negligible. In any case it is not as good as had been expected. The Minister of National Economy, in fact, had hoped that the average monthly deficit for this year would be less than half that of last year, or \$50,000,000. Actually it is 83.3 million. For the whole year it will amount to a billion whereas only \$600,000,000 had been foreseen.

How should we interpret this discrepancy between plans and reality? Several causes may be said to have contributed to the error in planning.

THE FIRST, and doubtless the most important, is that the plans have not been followed. The French people have not sacrificed everything to exports. They have exerted, and are still exerting, constant pressure on the government to improve their standard of living, and insofar as the government accedes to their demands, it does so at the expense of exports. To this primary reason must be added another, almost equally important. French prices, since the last devaluation (December 27, 1945), have continued to increase, a fact which has discouraged many foreign customers. And finally, a third reason for the meagre reduction in the trade balance is that the French farmers did not deliver all the wheat that was expected of them so that the country was obliged to purchase considerably greater quantities of American grains. Thus there has been a swelling in imports and at the same time a reduction in expected exports.

AS FOR IMPORTS OF THE SECOND quarter, they were reduced considerably—30 per cent in value—because of the reduction in import loans, which amounted to \$1,079,000,000 for the last six months of 1946. They were reduced still further in quantity, due to the rise in world prices. And it should be pointed out that present available funds are proving insufficient to permit financing the whole program which had been drawn up. It seems likely that the latter will have to be reduced considerably. What is already certain is that from now until October imports will be authorized to use only half of the foreign exchange credits that the government plans to place at their disposal. Thus, if the country's foreign exchange situation does not improve, the government reserves the privilege of reducing import credits still further, particularly for the dollar zone.

FROM THIS RAPID SURVEY ONE CAN deduce the importance attached to the success of the Marshall plan, from the French point of view. Only substantial loans will make it possible to catch up on the carrying out of the Monnet Plan. In any case, from now on, especially since the recent coal strikes, some slowing up of industry is expected. This month most of the factories are being induced by the authorities to shut down completely for the period of holidays with pay, whereas it had originally been planned that these would be taken in rotation. The drop in production, already noticeable this month, will be more next month. It will have unfortunate repercussions on exports.

The prospects for French foreign trade are thus frankly mediocre. They are further complicated by the fact that the prices of French products, except in some isolated cases, are higher than world prices for the same products. Thus, for example, some decrease in the demand for goods generally very much appreciated abroad has already been noted. Automobiles are a case in point.

SOME FRENCH OBSERVERS OF THE economic situation wonder if it will not cause the government to proceed with a new devaluation. Only a compulsory, systematic depreciation of the franc in relation to foreign currencies, they argue, can make French prices attractive again. But their prophesying is seriously criticized in certain political circles which accuse them of threatening the franc. Actually, it is only a question of a technical device which has been frequently used in the last 20 years, but which is very unpopular in a country where prices continue to rise, where production is standing still and even retreating, and where the money, moreover, is under enough pressure, without resorting to a devaluation that the shortage of goods to export makes less necessary than some want to admit.

Paradoxical as it may seem, it should be stated that devaluation would really be necessary if France's production were flourishing and if only excessively high prices were an obstacle to exports. But we have seen that such is not the case.

## Still Alive And Fighting

## Britain, France, U.S. Study Ruhr Coal

U.K. Information Office

CONSIDERABLE importance is attached to the two sets of discussions with a view to increasing German industrial productivity based on coal—the discussions between United Kingdom and American experts started in Washington last week on the technical problems of Ruhr coal production and the tripartite discussions between representatives of the U.S.A., United Kingdom and French governments about, firstly, raising the level of German industry and, secondly, the management and control of the Ruhr coal mines.

Both the United Kingdom and U.S.A. governments are agreed on the need to devise measures to increase coal production in the Ruhr. Since the economic fusion of the British and American zones this has been treated as a bi-zonal problem.

The precise agenda of the discussions in Washington will doubtless be finally settled around the conference table. Hitherto the Americans have been disinclined to extend the scope of the discussions beyond the primary cognate questions of steel and timber to such matters as food and housing.

Early this month, for the first time since March the daily output of the Ruhr mines reached a level of 230,000 tons. This falls

considerably below the target of 300,000 tons set for the second half of this year, but it is a far cry from the 2,000 tons daily which was all the Ruhr mines were turning out when the United Kingdom authorities took charge on Germany's capitulation. In two months production was raised to 60,000 tons daily and by the beginning of this year the 200,000 tons level was reached. But the problem has been rendered increasingly difficult by the combined cumulative effects of lack of food and housing accommodation as well as of essential mining equipment, which have reacted on the morale and productivity of the miners.

## RAISING PRODUCTION

The second set of discussions, in which the French government is to take part, have their origin in the provisional agreement reached between the British and American Zone Commanders some weeks ago in favor of raising the permitted level of German industrial production. This is considered essential by both governments in order that Germany may advance towards a position in which she will become self-supporting, paying for her imports out of her exports, and freeing United Kingdom and American taxpayers from the

burden of financing imports at present.

Not the least vital factor in this connection is the need to settle beyond question exactly which German factories will be allowed to produce and which will be earmarked for dismantling as reparations. The prolonged uncertainty on this score has handicapped organization and had the most depressing effect on the German working population tending further to decrease productivity.

The United Kingdom and American plans for raising the level of industry were communicated to the French government, which at once represented their desire to be consulted before any final decision was taken. The French government were evidently chiefly actuated by concern on the subject of security, lest sufficient measures might not be taken to prevent any potential revival of the German war machine.

The United Kingdom government freely admitted the cogency of the French desire for reassurance and now the U.S.A. government has officially announced their agreement to tripartite discussions both on the revised level of industry and on the management and control of the Ruhr coal mines.

## German Scientists—Assets Or Liabilities?

THE CHARGE IS made in an article by Seymour Nagan in a recent issue of the New Republic that ex-Nazi scientists, brought to the United States to contribute their knowledge to American defense preparations, have in reality learned more secret military techniques and processes than they have donated. The writer points out the obvious dangers if such a development should be true, and raises the pertinent query as to what can eventually be done with the Germans who have absorbed so much of the country's confidential military information.

Quoting from Mr. Nagan's article: "The information points to the conclusion that Operation Paperclip (the program for importing German scientists) is a great and growing threat to national security. The project's sponsors, when pressed, will admit that there is some element of danger attached to permitting German scientists to work near America's secret weapons. But they feel that the advantages to be derived far outweigh the dangers. American scientists, however, disagree. They cite facts to show that, whatever else they may be, the Germans are not assets, but military and moral liabilities."

## NOT IMPRESSED

"As originally conceived, the purpose of Operation Paperclip was to utilize German technical and scientific minds in the war against Japan." When the war ended, the War Department continued to import Germans "who could further research and scientific development in this country"—thus, in effect, laying down a policy of exacting "cerebral reparations" from the beaten Reich. "The War Department still claims that its German impor-

tations are great scientists. But army officers, however competent they may be in their own fields, are not the best judges of scientific worth. And American scientists, who are better qualified to judge, are not impressed with the army's proteges."

## RADIO HAMS

Mr. Nagan describes the German importations as "equivalents of our high-class radio hams," and "at best, clever military engineers."

He continues: "American scientists in and out of the government are unanimous in this point—we did not get the better grade Nazi scientists, the men with ideas. Some of Germany's leading scientists are still at large in the British zone. The French hold others and the indications are that the Russians, too, grabbed their share."

Despite army claims that they have screened out and brought over only the non-Nazi scientific men, Mr. Nagan says that many scientists in the United States are perturbed at the thought that to have achieved their former positions in the Nazi scheme of things, these men must also have

been screened by the Gestapo—and accepted as reliable Nazis. And these men are now in possession of top-secret information on United States rocket and other war-making developments.

"As undistinguished as they are unreliable, the visiting German scientists have little to show for their efforts here," Mr. Nagan claims. "On occasion they have had precisely nothing to show."

With this in view, he concludes that "Paperclip has endangered the nation's most vital defence secrets. . . . Meanwhile the time is rapidly approaching when American experts will have picked clean the Germans' brains. Then, the army and navy will be faced with the problem of what to do with them. 'We would be fools to let them go home,' said a State Department official. 'They know too much.' But this means they must somehow be rendered harmless here in the United States."

## BY THE TAIL

This poses a problem for which Mr. Nagan advances no solution. "The army," he says, "has a potential wildcat by the tail and cannot let go." The seriousness of his charge would appear to be gauged by the accuracy of his estimate as to the Germans' ability, their contribution to American developments (necessarily cloaked in official secrecy), and their attitude to the democratic country for which they have been working. He arouses, too, interesting speculation as to the results obtained by the other countries, particularly Russia, which have also availed themselves of German technical men taken as "reparations." It may be some time before the situation becomes further clarified—B.A.T.

## No Coalition

Montreal Star

It will be noted that neither the Conservative nor the Labor party in Britain desires the formation of a national government to see the country through its present crisis. It is true that such a coalition was formed in 1940 and operated effectively and with success. But the fact that the British people simply don't want another one now should be enough to silence the advice being so freely tendered to the British people from a distance.

## Global Survey

By LARRY HAUCK  
Associated Press Foreign News Analyst

Five Russian vetoes in the Security Council this week pointed up again the need for revision of the United Nations machinery. The situation was viewed by Secretary-General Trygve Lie as a continuing one, "no more serious than a year ago," but council chairman Faris el Khoury frankly acknowledged that the council was "paralyzed" by the veto.

In every one of the latest vetoes, which ran the Soviet string to 16, Andrei A. Gromyko killed a decision agreed to by nine of the 11 council members, Poland, as usual, supported Russia.

More important in the general picture than the mere 16 vetoes were the dozens of silent or unrecorded vetoes—the times when proposals never went to vote because Russia announced she would kill them.

The entire question will be aired again in the September meeting of the general assembly, Lie said. "To meet the situation, the U.N. has roughly three courses of action:

1. Attempts could be renewed to remove or modify the veto, but these apparently are doomed in advance.

2. Members could put pressure on Russia through world opinion to hold down on use of the special voting privilege granted by the charter to the Soviet Union, United States, Britain, France and China.

3. Delegates could press for a weighted system of voting in the 55-member assembly, where there is no veto, and gradually and quietly give the big body more prestige and power."

The first course cannot be considered seriously because Russia has said repeatedly that the veto must stay as it is. Neither does the United States want to give it up entirely because that would mean for one thing that the United States could be committed to a declaration of war by a council vote regardless of the feeling of Congress and constitutional processes.

## REAL ANSWER

The real answer to the first point, of course, lies in the charter itself, which must be changed to kill or modify the veto and which provides that any amendments shall be subject to unanimous approval of the five major powers.

Until recently the United States and others in the council majority consistently attempted to work out compromise proposals to satisfy Russia and avoid her veto. However, in the latest stages of the Balkans debate the western powers abandoned this course and forced two strong resolutions to a vote with the apparent motive of making Gromyko veto again and again and thus subject his country to the glare of the world spotlight.

A weighted system of voting in the assembly, under which a country's ballot would be assessed on such factors as population, area and resources, has been discussed at intervals. The biggest barrier here is the charter again, which gives all the real power in the U.N. to the Security Council and leaves the larger body principally rights to recommend and advise.

It might be possible to sell such a weighted system to Russia because she would stand to gain some strength. For instance the 20 Latin American republics, the majority of them small in size, population and comparative resources, have the same single vote in the assembly as Russia's major allies in the U.N.—Poland, Yugoslavia, Czechoslovakia and the Soviet Ukraine. Under any revision the Soviet Union would add power in her drive to overcome the western vetoes.

## Ceremony At Athletic Park Ends Children's Summer Playgrounds

Danny O'Brien, of Central Park Summer Playground, hits the white tape to win the 25-yard dash for boys of six and under at the inter-playground sports.

Preceding the races, the children paraded in groups around the baseball diamond in the park. Each group carried a sign bearing the name of the playground it represented.

Children's playground activities in Victoria were brought to an end until next summer Wednesday afternoon when children from all nine playgrounds within the city limits gathered at the Royal Athletic Park for a gala closing-day ceremony.

During the afternoon, the children took part in folk dances, tumbling drills and a sports meet. One group presented the story of "Snow White and the Seven Dwarfs," while some of the boys took part in the inter-playground boxing finals.

Guests of honor at the ceremony were Dr. Henrietta Anderson, Recreational Council director; Mayor Percy George and W. H. Warren, parks superintendent.

In a brief address to the 300 spectators, Mayor George said he thought there was a lack of appreciation on the part of the citizens for the work which was done by the playground committee. He said the small attend-

Bill White, right fielder of the Victoria Athletics, was one of the judges at the children's playground conclusion exercises. Here he is seen with Joan Taylor, winner of the decorated bicycle contest.

ance at the park showed smug complacency on the part of parents.

The mayor praised the work done by Gordon Hartley, city playground supervisor.

Results of the various contests are as follows:

25 yard dash, girls, six and under: Monica White (Central).

25 yard dash, boys, six and under: Danny O'Brien (Central).

50 yard dash, girls, eight and under: Ann Frankham (Beacon Hill).

50 yard dash, boys, eight and under: Terry Tercott (Hollywood).

Girls, 10 and under: Gail Marshall (James Bay).

Boys, 10 and under: Donald Pollan (Central).

Girls, 12 and under: Marlene Vance (Central).

Boys, 12 and under: John Whan (Beacon Hill).

Girls' open, 100 yards: Mary McKissock (Burnside).

Boys' open, 100 yards: Gerald Kenny (Burnside).

Girls' slow bicycle race: Myra Barr (Central).

Boys' slow bicycle race: Kerry Burbridge (Hollywood).

Girls' skipping, eight and under: Maxine Kennedy (Burnside).

Girls' skipping, 12 and under: June Holberg (James Bay).

Girls' skipping, open: Joan Rolph (Central).

Still walking, open: Bill Gelling (Hollywood).

Softball throw, eight and under: Russell West (James Bay).

Softball throw, 12 and under: George Wright (Victoria West).

Softball throw, open: Charlie Putnam (Central).

Pie-eating contest: Mike Edens (Hollywood).

**BOXING**

Inter-playground boxing matches were refereed by Vic Murdoch, local flyweight. Winners were: Kenny Griffin (Stadcona), Norman Bradley (Central), Mike Edens (Hollywood) and Ormald Stathenkir (Oakland) draw; Barry Rabb (Beacon Hill), and George Wright (Victoria West).

**FOLKESTONE** — Schools in Kent may be used for political meetings on condition that "no citizen is prevented from exercising the rights of free speech."

## 11 Bodies Found In Plane Wreckage On Mt. Rainier

LONGMIRE, Rainier National Park (AP)—A Mount Rainier National Park ranger told Wednesday afternoon of finding the bodies of 11 U.S. marines crammed into the crumpled nose of the transport plane which carried 32 to death against the mountain last December.

Assistant Chief Ranger Bill Butler, who made the original discovery of plane wreckage at the 10,000-foot level last month, and Rangers Robert Weldon and Bruce Meyers found the bodies Monday after an overnight climb in the face of ever-threatening rock-slides and crevasses.

They stayed at the mountain for a navy army party's decision today on whether or not the hazardous attempt will be made to bring the bodies, and others which may be found, down from the treacherous south Tahoma Glacier.

Park Supt. John Preston estimated that between 75 and 100 men would be needed for such a risky recovery mission, with at least 50 of them experienced mountain climbers. He said such a large party could not be recruited from park personnel, nor could the park service provide the large amount of equipment needed.

The first official announcement of the rangers' discovery came from the navy Wednesday. The 11 bodies, which presumably had been encased in snow and ice since the crash, were not identified.

Describing the dangerous climb to the crash scene, Butler said "it was pretty bad" on the glacier. "Rock avalanches were falling steadily. There were dust clouds there all day from the falling rock."

Mount Rainier National Park spokesmen said evacuation parties would be met by a great barrage of volcanic rock from the 4,000-foot wall rising from the glacier to the mountain peak. Alternate freezing and thawing of the brittle wall at the head of the valley formed by the glacier causes the barrage.

Decision whether to brave crevasses, flying rock and crumbling ridge rock to bring out the bodies will be made at the scene.

## 20 New T.C.A. Giants To Bring D.P.s To Canada, Howe Reports

OTTAWA (CP)—Large-scale aerial transfers of European displaced persons to Canada are going to be undertaken by the Dominion government this fall, Reconstruction Minister Howe said today on his return from a four-week visit to Europe.

In a pre-dawn interview aboard an airplane as he flew from Montreal to Ottawa on the last lap of a trans-Atlantic flight, Mr. Howe said the flying immigration project was expected to be launched soon after the end of September.

When the scheme gets into full swing, the minister declared, between 2,500 and 3,000 persons from Europe's D.P. camps would be landing in Canada monthly, and it was expected the federal

government would assume responsibility for the transporting of all such persons to the Dominion.

The new movement would be touched off when Trans-Canada Airlines received delivery of 20 large new planes for its trans-Atlantic service, due late in September. The 40-passenger machines with pressurized cabins will more than triple the T.C.A.'s transoceanic capacity.

### DIRECT FLIGHTS

Mr. Howe said that in picking up displaced persons, the government planned to have the planes go right to the continent and fly the immigrants direct to Canada.

"I think they will be able to get them over as fast as by ship," he said.

At the same time, he declared, he had been making efforts in Britain to obtain more shipping space for the transporting of immigrants of all kinds to Canada, and he was hopeful the accommodations would be enlarged.

Asked about a Frankfurt report that homeless Germans might be permitted to emigrate to Canada, the minister declared this had not been considered. The Frankfurt report last week said such a plan was under discussion between British and United States occupation officials.

Mr. Howe said he did not think Canada would enter into a plan of this kind involving former enemy nationals, at least until the peace treaty with Germany had been signed.

Mr. Howe displayed no great concern over a Russian charge before the United Nations' Economic and Social Council last week that Canada and other countries were recruiting "cheap labor" in the displaced persons. "They are protected by the Canadian labor laws," he said. "Their employment conditions are guarded just the same as those of other workers."

### NEW ARSENAL PLANS

One of the things Mr. Howe intends to look into shortly, he said, is the question of obtaining peacetime production from Canada's government arsenals. He had been impressed by what the Britons were doing in this line.

Woolwich Arsenal in England was turning out a variety of civilian products that even included safety razors. While Canada had nothing to compare with that great production centre, he felt the question was worth looking into.

### Hear Reports On Oak Bay Projects

A report on six local improvements underway and proposed, along Valdez Place, Lincoln Heron Loop and Lincoln Road, was submitted to Oak Bay council Wednesday evening by A. S. G. Musgrave, municipal engineer.

The first was laying of asphaltic pavement with turnway, the addition totaling 179 feet, on Valdez Place. Estimated cost of the work is \$2,167, of which the owners of property abutting the improvement will pay \$1,989, and the corporation \$178.

On the Lincoln Heron Loop 117 feet of 24-foot paving and concrete curbs will be installed at a cost of \$4,180. Estimated share of the cost to be borne by the municipality is \$481, and that of owners of property abutting the improvement, \$3,699.

The third is a watermain on Valdez Place to serve five lots. The work will cost an estimated \$543, of which the corporation will pay \$54, and the property owners \$489.

The fourth is a sewer and storm water drain to serve the same five lots. The work will cost \$633, of which the municipality will bear \$189 and the property owners the remainder.

The fifth is a four-inch watermain to serve 17 lots on Lincoln Heron Loop. Estimated cost of the work is \$1,505, of which the property owners will bear the total cost.

The sixth is a sanitary sewer on Lincoln Road, to serve 17 lots. Cost of the work will be \$2,080, of which the municipality will pay \$624 and the property owners the remainder.

**Handshake Breaks Arm**  
EPHRATA, Wash. (AP)—Meeting for the first time in six years, brothers Luther Gray of Ephrata and Homer J. C. Gray, Yakima, Wash., shook hands enthusiastically. The vigorous handshake fractured Luther's arm.

**CAR TOP IS HIS 'AIRPORT'**—Grady Thrasher, Elberton, Ga., aviator, has built what he claims is the world's smallest airport. Photo above indicates his claim is justified. He's pictured taking off from his Ford-borne "airfield," a platform moored to the car top. Car travels 35 miles an hour during takeoff. A few minutes later, with the auto going 45 miles an hour, Thrasher landed the plane on the same platform.

**Hail in Ontario**  
ST. THOMAS, Ont. (CP)—Hailstones a quarter of an inch in diameter fell north of here

Wednesday as an electrical storm swept the city. Within 50 minutes nearly an inch of rain fell and several streets were flooded from curb to curb.

## Find Store Of Arms In Jewish School

JERUSALEM (Reuter)—British paratroops and police discovered an underground arms store in a school in the Jewish Montefiore quarter of Jerusalem during a search of that area Wednesday.

The haul included 15 rifles, about 4,500 rounds of ammunition, 400 Mills grenades, 32 pistols and two Italian-made machine guns.

## 62 Egyptians Drown As Ferry Capsizes

CAIRO (Reuter)—At least 62 Egyptian holidaymakers are believed to have been drowned when a ferry boat capsized Wednesday in the Nile in Upper Egypt. Only 18 passengers were rescued.

The ferry was taking more than 80 persons, the majority women and children, to join celebrations of the Moslem feast of Bairam.

## Travel To Interior On Wedding Trip

Honeymooning in the interior of B.C. are Mr. and Mrs. William Carl Boutillier, whose marriage took place Monday evening at 071 Cedar Hill Crossroad.

The bride, the former Miss Doris Maureen Warkentin, was dressed in white satin and lace, fashioned with sweetheart neckline and long sleeves. Her headpiece and veil were of embroidered net and pearl flowers, and she carried a bouquet of pink roses and white carnations.

Miss Audrey Boutillier, sister of the groom, was maid of honor; she chose a gown of pink sheer, and carried a colonial nosegay. Reginald Warkentin, brother of the bride, was best man for the room.

Following their honeymoon trip, for which the bride donned navy blue suit with navy and artan hat and matching accessories, Mr. and Mrs. Boutillier will return to the city to make their home.

## Nuptial Vows For Jessie Banister

Marriage vows were exchanged Tuesday evening by Miss Jessie, youngest daughter of Mr. and Mrs. R. R. Banister, 2950-Orillia street, and Raymond Carl Seymour, 3056 Washington Avenue, at the home of the officiating minister, Rev. J. Hyde.

The bride, wearing a smartly tailored chocolate brown suit with felt hat in brown and blue, accessories of white and brown and corsage bouquet of gardenias and red roses, was given in marriage by her father.

Miss Shirley Erb, bridal attendant, chose a light brown suit of gabardine with matching hat, and white and brown accessories. Her corsage bouquet was of pink roses and heather. John Banister, brother of the bride, stood with the groom as best man.

A reception followed at Hampden Hall, Burnside Road, where Mrs. Banister and Mrs. Seymour assisted the couple in welcoming guests. A three-tier cake, flanked by silver candles, centred the bride's table which was decorated with pink and white sweet peas. Red Sigler proposed the bride's last.

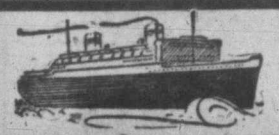

**CAROLE LANDIS**  
Popular stage and screen star says: "It's so reassuring to be really safe with wonderful, new Arrid. It's the only deodorant I've tried that stops perspiration and deodorizes completely—yet is really safe for my skin and clothes."

## Leave Today For California Home

Mr. and Mrs. Sterling R. Irving and their small daughter Vicky, who during the past two weeks have been guests of Mrs. Irving's parents, Mr. and Mrs. B. S. Heisterman, 915 St. Charles Street, and of Mrs. H. Weldon, 906 Pemberton Road, left this morning for Port Angeles en route by motor to their home in Los Angeles.

## Vancouver Shares Interest In Usborne-Howard Nuptials

Of interest on the mainland as well as in the city was the marriage of Miss June Bernice Howard, daughter of Mr. and Mrs. C. C. Howard, 1054 Summit Avenue, and William Andrew Usborne, son of Mr. and Mrs. H. L. Usborne, Vancouver.

Yellow and white gladioli and white chrysanthemums in standard baskets formed the setting at First United Church for the service read by Rev. H. A. McLeod.

The bride, given in marriage by her father, wore a white crepe gown designed with chiffon velvet drapery outlining the off-the-shoulder neckline, and velvet peplum drawn to a bustle effect, over the skirt, fully en train. Fragile net clouded over all from clusters of orange blossoms, and the bride carried a cascade bouquet of gardenias and yellow roses.

Matron of honor for her sister, Mrs. Frank Crompton was gowned in pale green eyelet embroidery, with full skirt, square neckline and cap sleeves. She carried a cascade bouquet of peach gladioli to match the blossoms in her headdress. Identical full-skirted gowns of soft yellow eyelet embroidery were worn by bridesmaids, Mrs. Dean Bragg and Miss Frances Mac-

Neill of Vancouver. Their head-dresses were of mauve gladioli, repeated in their cascade bouquets. All wore matching lace mitts.

William Williams acted as best man, and seating guests were Leighton Lovitt and Alex Holder.

Duke of Kent Room at the Empress Hotel was the scene of the reception where Mrs. Howard and Mrs. Usborne assisted in receiving guests. C. S. Hyland proposed the bride's toast. A three-tier cake centred the bridal table.

A grey boucle suit with short box jacket, turquoise gabardine topcoat, grey accessories and corsage bouquet of gardenias were worn by the bride on the honeymoon motor trip up Island.

Mr. and Mrs. Usborne will make their future home in Vancouver.

## Miss Addie Morris Active In Girls' Work

Miss Agnes Adeline "Addie" Morris, who died Monday afternoon at St. Joseph's Hospital, had lived in Victoria for over 60 years. She was an active worker in the community life of the city and in Vancouver and Seattle where she resided at different times.

Actively interested in girls' work for over 40 years, Miss Morris was a leader in the C.G.I.T. movement here; also a member and director of the Victoria Business and Professional Women's Club and a member of Carle Rebekah Lodge, I.O.O.F.

Prior to her death she was engaged in social service work with the Friendly Help Association. Born in Tryconnell, Ont., the daughter of the late W. H. Morris and Mrs. F. Smith, Miss Morris is survived by a sister, Mrs. Ada A. Miles, Stanley Avenue; an aunt, Mrs. A. E. Wade, Mears Street; nephews, Walter S. and Dr. Stanley F. Miles, Victoria; George H. Miles, Los Angeles; W. H. Morris, in Peru, and J. R. Morris, Vancouver; also one niece, Mrs. Charlotte Talbot, Los Angeles.

Funeral services were held this afternoon at Christ Church Cathedral. Dean Spencer Elliott officiated and interment was in Ross Bay Cemetery.

## Growing Up

Princess Margaret Rose of Great Britain poses for photographers in Buckingham Palace on the eve of her 17th birthday, which she is celebrating today. The Princess will spend her birthday quietly with a family dinner in the evening attended by the King and Queen, Princess Elizabeth and Philip Mountbatten. But henceforth she is likely to be seen more in public, starting with Oct. 16, when she launches the liner Edinburgh Castle at Belfast. As one of the honors likely to descend on her steadily now that she is leaving girlhood behind, she becomes colonel-in-chief of the Highland Light Infantry today, an appointment that will delight Scotland, where she was born and where she now is on holidays at Balmoral Castle with the Royal party.

## Engagements

Announcements to appear under this heading will be accepted at the Times Advertising Department. Minimum charge \$1.50 for 10 lines, and 15¢ for each additional line.

Mr. and Mrs. F. S. Rawlings, 3128 Glasgow Avenue, wish to announce the engagement of their daughter, Gladys Marie, to Gordon Fraser, youngest son of Mr. and Mrs. J. B. Roe of 1637 Amphion Street. The wedding will take place on Sept. 17, at Centennial United Church at 8 o'clock.

## Personal Notes

Mr. and Mrs. R. D. Sheret, formerly of Victoria and now of Vancouver, are visiting for several days in the city, guests at the Cathay Apartments.

Mr. and Mrs. G. W. Paterson and Miss Florence Paterson of Goderich, Ont., are the guests of Mr. and Mrs. Alex Y. Johnstone, 2238 Brighton Avenue.

Miss Jennie M. Shaw has arrived from Hollywood, Calif., to visit her brother and sister-in-law, Mr. and Mrs. R. L. Shaw, 1312 Victoria Avenue.

Miss Vera Critchard has returned to the city following a two-week stay at Hotel Georgia in Vancouver. Miss Critchard will leave shortly to visit friends in California.

Mrs. A. Dean and Mrs. A. L. Brealey with her children Jeep and Quita have returned to their homes in West Point Grey, Vancouver, following a 10-day visit with Mrs. W. W. Melville, Ten Mile Point.

Mr. and Mrs. B. P. Alley, Sea View Road, have as their guest Mrs. M. Mainwaring of Brockville for several days. Mrs. Mainwaring arrived from Vancouver, where she visited her son-in-law and daughter, Mr. and Mrs. Patrick Alley.

Mrs. H. Delmas, Rose Street, and her brother, Mr. F. R. Pedersen, O'Brien Bay, returned last week from a five-week visit with their mother, Mrs. J. Rahbek and other relatives in Denmark. This is the first visit Mrs. Delmas and Mr. Pedersen have made to their Danish home in over 20 years. They made the entire trip by plane.

Mr. and Mrs. Sidney Roberts, Moss Street, and Mr. and Mrs. E. B. Roberts and their son Denis, Madison Street, have returned to their homes following a vacation at Qualicum Beach. Holidaying with them were Mr. and Mrs. H. E. Griffiths and their son and daughter Eric and Elaine of Vancouver.

Mrs. W. R. Sayer and her son-in-law and daughter, Mr. and Mrs. E. C. M. Maunsell have returned to their Empress Avenue home, following a 16-day holiday at Sylvia Court, Vancouver. Mr. and Mrs. Maunsell are now visiting on Salt Spring Island and in Sooke. Next Sunday Mr. Maunsell will return by plane to his work at Jericho Beach.

Among guests attending the marriage of Miss Jessie Banister to Mr. Raymond Seymour, which took place Tuesday evening, were Mr. John Bannister, brother of the bride, Mr. and Mrs. W. H. Seymour and Miss Dorothy Seymour, Mr. and Mrs. A. Nicols, all of Vancouver; Miss Margaret Seymour, Trail, B.C., and Mr. and Mrs. H. Munro, Toronto.

Mr. and Mrs. Frank Stevens, with their sons, Geoffrey and Herbie, arrived from Calgary for a two-week visit with Mr. Stevens' parents, Mr. and Mrs. G. H. Stevens, Orchard Avenue. Mr. Stevens is assistant manager of the Royal Bank of Canada at Calgary. Mrs. Stevens is the former Miss Margaret Vantreigh of this city. Their arrival coincides with the visit of Mr. Stevens' brother, Maj. Kenneth H. Stevens, M.B.E., R.E., who has just completed two years' service in India, and his wife.

## Y.P. Societies

Chi Rho—Greater Victoria Chi Rho Fellowship will hold a beach party tonight. Members will meet at the terminus of Oak Bay carline at 8.

## Do You Feel Nervous And All on Edge?

People suffering from loss of appetite and run-down condition with symptoms of nerve strain often need a nerve and general tonic. Glycerol-Lecithin with Vitamin B(1) supplies tonic ingredients. It is especially beneficial for convalescents. By increasing the supply of Vitamin B(1) in the system, appetite is improved and the system thereby built up to normal if the loss of appetite was due to deficiency of Vitamin B(1) in the diet. \$1.00 at all Cunningham Drug Stores and other drug stores. HOC-1

## Fine Comb Tames Too Tight Locks

"What can I do about too-tight curls?" asks the sweet young thing, who explains that hair which jumps back to her head like tightly coiled springs is one of Nature's over-abundant gifts about which she is not very happy.

A New York hairdresser has a practical solution for curbing unruly curls. It is offered in the hope that it will help all those who may be vexed by Nature or by a permanent-wave operator.

Our expert's method of coping with too-tight curls is to discipline the top layer of hair with a fine-toothed comb and a setting lotion. If tightly curled layers of hair underneath make the coiffure too bulky, this hair-

dresser says to have the undesired thickness pruned out. Judicious cutting is his method of coping with too narrow or ridge-like waves which ripple over a head. When his customers have this problem, he cuts their hair into broader, deeper waves. This is done, he says, by trimming out curl completely in alternate layers. Cutting out every other "washboard" ridge broadens and widens waves.

**Prune Whip Pie**—Two egg whites, 1-3 cup sugar, dash salt, 1 cup cooked prunes, 1/2 teaspoon lemon juice, 1 nine-inch baked pie shell. Beat egg whites until stiff but not dry. Gradually beat in sugar and salt. Fold in prunes and lemon juice. Pile lightly into pie shell. Serves 4 to 6.

**Black Has It!**—Black costume touches—black tops for bright skirts, black skirts for bright blouses, black belts for print dresses.

## Put Sticky Rouge In Refrigerator

Ever have a lipstick pull loose from its base and cleave to the roof of the case? When warm weather softens the rouge waxes, even a slight wrong turn on the screw base may flatten the lipstick tip against the case top.

But you don't have to count your lipstick a total loss if it puts on such a performance. Here's a trick to pry it loose without gouging up your fingers.

Ice the lipstick case in the refrigerator's ice cube compartment. This stiffens up the soft rouge and makes it easier to jar loose. Pull out the empty base and place the top, open side down, on a hard surface covered with a piece of cleansing tissue. Then hit top sharply.

## Young Engineer's Strange Quest Like Fiction Story

NEW YORK (AP)—Two important things happened to Mark Evans, a young mining engineer, during a winter he spent in Canada.

He found a vein of gold. And he fell in love with Kathleen McDingle.

When his miner's pick uncovered the yellow metal he had come to search for, he knew his days of poverty were over. At night, when the wind beat against the door of the abandoned cabin he had made habitable, he would stretch out in front of his fire and dream of what he would do with his riches.

He would travel, yes—see all the strange cities he had read of in his boyhood.

It was then that Kathleen McDingle came into his life in an odd way. While cleaning debris from a shelf he found a scrap of newspaper apparently torn from the society section. It showed the face of a beautiful girl with dark hair that hung to her shoulders.

The caption beneath the picture said she was Kathleen McDingle and that she was visiting friends in Montreal.

In the weeks that followed, Evans studied the picture more and more. In time he fell in love.

"By golly I'm going to marry her," he told himself one night.

When spring came Evans went to a leading mining company with his ore samples. In a few weeks he closed a deal with the firm that assured him of a million—and more. He left at once to find Kathleen McDingle.

The house was old and impressive. Mark felt timorous after ringing the doorbell. The door swung open and he found

himself gawking into the face of a beautiful girl with long dark hair.

"You're Kathleen?" he stammered.

"Yes," she said pleasantly. "You're even prettier than the picture," said the bemused young engineer.

"I don't know what—" she started uncertainly. But Evans didn't let her finish. His story came out in a swift torrent of words. He told her of his gold strike and the discovery of her picture.

"Here," he said nervously as he finished, and pulled the worn picture from his wallet. She studied it and then looked at Evans strangely.

"Mother!" she called into the interior of the room. A sweet-faced, grey-haired woman of middle age came out.

"Look at this, mother," said the girl. The older woman glanced at the picture and exclaimed:

"Why, wherever did you get this, Kathleen? That picture of me was taken in Montreal in 1920 before I was married."

Kathleen burst out laughing. The mother looked doubtfully from her daughter to the thunderstruck tall young man staring back at her as if hypnotized.

"What's it all about?" asked the puzzled woman.

Kathleen thoughtfully studied the confused visitor who, after all, had found a nice new gold mine. So few eligible bachelors do these days. Her dark eyes smiled at Evans with a sudden warmth that began to thaw his chilled despair.

"It's a long story, mother," said Kathleen. "Perhaps you'd better invite this young man to stay for dinner."

## In Step With Style

**Sun Bleached**—If your hair is badly sun-bleached and in need of a permanent, put yourself in the hands of a skilled hairdresser. To successfully curl sun-bleached hair requires special skill in determining strength of the lotion to be used and in tempering the heat of the machine.

**Whip Them Up**—If your wardrobe lacks a touch of smart-but-sturdy black to lift it from the end-of-summer doldrums, add a few of your own making. A dickey, for instance, that poses as a blouse is a cinch to make and requires only a small piece of black cotton, linen, jersey or rayon crepe. A girl who is clever at sewing can whip up a bare-shouldered black blouse which, worn with skirts of bright print, can be used as a wardrobe pick-me-up from now until the end of summer.

**They Flatter**—Skirts offering the keenest flattery are high-waisted and flare out from the hips. The lowered hemlines which are coming into fashion will also be a boon to women who have winced for years at having less than perfect legs limelighted by short skirts.

**For Dyeing**—Temperatures used in the redyeing process usually cause some shrinkage. Fabrics to be dyed must have enough elasticity so that garments can be stretched back to original shape. This shrinkage factor rules out most snug-fitting or bias-cut garments. Crepes, rayons and woolsens that have been properly pre-shrunk usually survive redyeing without harm.

**Lotion Good**—Give your powder puff more peace by using a facial lotion or skin freshener after you cream your face. The girl who doesn't remove every trace of face cream with a mild astringent freshener needn't wonder why the hot weather kicks up a shine on her nose.

**Very Slimming**—The stocking shade most slimming to large legs is a darkish greyed-beige. A woman with leg-size to minimize should shy away from the too-dark shades—black, navy blue or brown, for example—which because they are style-extremes will call attention to her faults.

**It's Easy**—A bright scarf draped over a strapless wired bra makes a glamorous topper for play clothes or evening skirt. To drape, put on your bra, open up a square scarf and tie two corners over the bra-strap in back. Pull the other two corners of the scarf under the centre of the bra in front and tie in a knot in between bra cups. Then tuck in excess material all around the edge of the bra—the wired rim will keep material in place.

**Try This**—You can make a scarf serve as a high-necked dickey. For this, wrap one side around the neck and tie the corners in a perky bow in front. Pull the lower edge tight around the waistline and pin the overlapping corners together to keep a smooth line under a suit jacket.

**Up to You**—If your locks look like a young strawstack, you can bring them under control by brushing. Brushing coaxes natural oil from the scalp out into the hair strands. If scalp and hair are excessively dry, give nature a hand with lanolin salves or liquids applied to the scalp and brushed through locks.

**Sophisticated**—Give black accessories a free hand to sharpen the vivid prints in your midsummer wardrobe. Black will keep bold plaids and checks from looking overly bold. Black will suggest a look of sophistication for pale or insipid wardrobe colors.

**For Sun Tan**—Black worn next to a tawny skin makes a flattering foil for a sun tan. A touch of black introduced into a costume gives a girl a good excuse for wearing black shoes and carrying a black bag which look chic and are soil resistant.

### Social Situation

Situation: When shopping in a store with a companion you feel that the salesperson is either rude or inefficient and you are annoyed.

Wrong Way: Make a remark to your companion about the poor service in a voice loud enough to be heard by the salesperson.

Right Way: Keep your temper. Making derogatory remarks in the hope of being overheard by the offender is never in good taste.

## Plump Girl Needs Light Perfume

Junoque girls who would like to under-accents their magnificent proportions should enlist the aid of perfume to that end.

Perfumer Bernadine de Tuvache, who creates rare scents and speaks with authority on the impressions they can create, claims that delicate, airy fragrances will help the stout woman put over the illusion of less bulk.

Says our perfumer: "The tendency of the overweight woman is to use heavy perfumes. When these fragrances are exploded by body heat, the effect is too much woman and too much perfume."

The effect of a light fragrance when wafted about by the large woman, says our expert, is to

make her seem daintier and more feminine. To achieve what Madame de Tuvache calls "the fourth-dimension of lightness," Junoque gals are advised to use their come-hither scents so as to create an enveloping aura. Suggested areas for application are shoulder pads, handkerchiefs, gloves, the inside of a handbag and the hand fan that goes into action in hot weather.

**Peach Butter**—Four pounds of peaches, 1 cup water, 1-3 cup sugar, 1-3 cup light corn syrup. Wash peaches; remove fuzz by rubbing with cloth. Halve and quarter. Discard pits. Place in deep kettle, add water and cook until peaches are soft, about 10 minutes, stirring occasionally to prevent sticking. Force through sieve. Add sugar and corn syrup. Boil rapidly until mixture thickens, about 50 minutes, stirring frequently. Pour into clean hot jars. Seal immediately according to type lid and jar. Process 10 minutes in boiling water bath.

## U.S. Navy Jet Plane Smashes World Air Speed Record

MUROK, Calif. (AP)—The United States navy sent the jet-propelled D-558 Douglas Sky-streak four times over a three-kilometre course at an average of 640.7 miles an hour Wednesday, setting an international air speed record. Cmdr. Turner Caldwell, 33, was the pilot.

The navy craft, an experimental job, flew at 653.4 miles an hour on the fastest of its four passes at the course.

The new mark is 16.9 miles an hour faster than the recent army-established mark.

The plane broke the record set a month ago by Col. Albert Boyd, who flew the course at 623.8 miles an hour in the Army Air Forces' Lockheed jet P-80.

Cmdr. Caldwell, looking slightly tired after his sensational speed dashes, said the plane "behaved perfectly."

He said he was bothered slightly by a mild cross wind but the plane operated with "absolutely no vibration." However, at the speeds he reached, it bounced "much like a speedboat in a choppy sea."

## Old Barn Burns

TORONTO (CP)—A 93-year-old barn on Dufferin Street, North York, just north of Toronto, was destroyed by fire Wednesday night. Thirteen pigs died in the five-hour blaze and a number of chickens disappeared—some of them in the arms of onlookers.

## Expects Britain Will Pull Through

SYDNEY, N.S. (CP)—Reconstruction Minister Howe, between planes on his return to Canada following a trip to the United Kingdom and Europe, early today expressed confidence Britain would pull through the current economic crisis.

Mr. Howe was accompanied by Mrs. Howe.

## Dry Ice Makes Rain

CHICAGO (AP)—An airplane dropped 150 pounds of pulverized dry ice into the top of a cumulus cloud at 20,000 feet Wednesday and 10 minutes later a 40-minute rain drenched suburban St. Charles, Ill. Federal weather forecasters who were aboard the plane said there was no rain within 20 miles before the experiment.

## Excess Profits Tax Act Standard Profits Claims NOTICE

Recent amendments to the above Act provide that all standard profits claims must be filed with the Department of National Revenue before 1st September, 1947.

All applications are required to be in such form and contain such information as may be prescribed by the Minister and the Minister may reject an application that is not made in such form or that does not contain such information.

The prescribed forms (S.P.1) are available at all District Income Tax offices of the Dominion Government.

All pertinent information required on the form must be included or attached thereto in schedule form. Tentative or incomplete forms or those filed after 31st August, 1947, will not be accepted.

**Department of National Revenue**  
Ottawa

James J. McCann, M.D.,  
Minister of National Revenue.

## Closing Dates For Vocational Classes

Department of Veterans' Affairs in Vancouver today warned veterans that this month is their last chance to apply for training as sheetmetal workers under the vocational training plan.

"Unless a sufficient number of applications are received," a D.V.A. spokesman said, "the sheetmetal course operated by the Canadian Vocational Training in its Slocan School at Vancouver Tech. will be discontinued when the present class of students graduates next week."

Good job placement opportunities in this trade still exist, the official explained. C.V.T. can handle 10 students at a time in the 40-week course, which has a prerequisite of Grade 10 or equivalent standing.

The last course in bricklaying will commence at the Slocan School about Sept. 15. This course is of 13 weeks duration and employment opportunities are excellent.

Although deadline for all vocational training applications is Dec. 31, 1947, D.V.A. advises veterans to apply as soon as possible to avoid disappointment. If insufficient applications are received, C.V.T. will be forced to close certain schools even before year's end when present classes are completed.

## Influx Of Families To B.C. Continues

The influx of families from other parts of the Dominion to British Columbia continued during August according to figures released today by W. R. Bone, regional director of family allowances. During the month 666 families arrived in the province from other parts of the Dominion, while 252 departed for elsewhere in Canada. The highest influx was from Alberta with 224 families arriving, Saskatchewan second with 197 and Manitoba third with 131. Leaving British Columbia for the prairie provinces were 104 to Alberta, 39 to Saskatchewan and 18 to Manitoba.

Allowances paid in British Columbia during August totaled \$1,491,041; this going out to 131,863 families in respect of 253,215 children.

**Vancouver Millionaire Gives Town Theatre**  
PALMERSTON, Ont. (CP)—Because George W. Norgan, Vancouver millionaire sportsman and Palmerston old boy, remembered the children when he decided to build a theatre in his home town, Palmerston has a show house in which boys and girls can see a movie at a Saturday matinee for five cents.

The special children's rate was one of the stipulations under which the 433-seat \$50,000 theatre, Palmerston's first, was opened Wednesday. Another was that revenue from the theatre is to go to beneficial works in the town.

Nearly 25 years ago Mr. Norgan left this Perth County community, where his father once operated a small store. A year ago one of his friends here told him the town needed a theatre and he immediately started planning the project.

**Mother, Baby Killed**  
SALT LAKE CITY (AP)—A 22-year-old mother and her 14-month-old daughter were killed when a small table model radio apparently fell or was pulled accidentally into a bath tub in which the two were bathing Wednesday night. A physician said Mrs. Norman Waagen was electrocuted, while the baby pos-

sibly died from a combination of drowning and electrocution.

## To Present Ukrainian Dance

These members of the Canadian Ukrainian Association will present Katerina, a Ukrainian dance, at the International Vaudeville which will be presented by the "Y's" Men's Club at the Victoria High School on Friday and Saturday nights. Those in the picture are: Back row, left to right, Frances Berezny, Elsie Pakulak, Lee Kozak, Kay Komarnik, and Bill Pakulak, director; front, Leo Kozak and Alec Onischuk. Proceeds from the performances will go to the World Youth Fund.

## News Of The Island

### Autumn Brings Colorful Fall Fairs To Island Districts

Autumn, "season of mists and mellow fruitfulness" as the poet Keats wrote long ago, is once again setting the stage for the colorful fall fairs to be held throughout Vancouver Island this September.

While fruit hangs heavy on the vine and squash and pumpkins wax fat in the fields, farmers and housewives of the country districts prepare to bring their best for all to view.

It is the time of year when the country displays its bounty, and in showing it offers thanks-giving.

For city dwellers it is a wonderful excuse to make for the open road and country fields, to taste not only of the fruits of garden and farm but of the genuine hospitality of their country neighbors.

The fall fair is tradition on Vancouver Island and seemingly ageless, but it is welcomed every year as if it were a new adventure.

Alberni district is staging one of the first fall fairs of the island. Under sponsorship of the Port Alberni Kinsmen Club a three-day fair will be opened in the Army Drill Hall at 7 tonight. Other fairs to follow include: Cobble Hill, Sept. 3; Duncan, Sept. 5-6; Luxton, Sept. 10; Coombs, Sept. 10-11; Nanaimo, Sept. 12-13; Ladysmith, Sept. 17-18.

Most recently announced are the plans for the annual fall

### Ask B.C. To Follow Ontario's Plan For Immigration

DUNCAN—Resolution of the Duncan City Council, requesting the B.C. government to inaugurate a policy of bringing immigrants from Great Britain, similar to the policy of the province of Ontario, was endorsed by 16 members of the quarterly meeting of the Duncan Chamber of Commerce.

A letter will be sent to Premier John Hart and the Canadian Chamber of Commerce asking for support, the group decided at the meeting.

Close co-operation between the city council and chamber of commerce, was recommended by the president, and a letter will be sent thanking the city for an increased grant this year. Municipality of North Cowichan will be asked for an increased grant.

Discussing what they termed the "dangerous state of the side-walk north of Duncan on the Island Highway through the Indian Reserve land, the meeting agreed to send a letter to the government agent, asking him to bring the matter to the attention of the Provincial Department of Public Works.

### Union Head Hurt At Port Alberni

PORT ALBERNI, B.C. (CP)—Cal Cook, president of the Port Alberni local of the Longshoremen's Union, was injured today when he was caught between rollers during loading operations at the government wharf. His injuries are not serious.

### 200 Attend Dance At Fulford Harbor

FULFORD HARBOR — More than 200 attended a dance held under the auspices of the Fulford Harbor Athletic Club in Fulford Harbor Community Hall, with music supplied by Lou Macorkall's orchestra.

Earlier in the evening two softball games were played between Bob White's Hot Spots of Victoria and the Fulford girls team, which resulted in a win for the home team 12-8. In the game between the New Method Laundry and the Fulford men's team score was 5 all. Members of the visiting teams were entertained at supper before attending the dance.

### Settlement Approved For Bus Crash Victim

VANCOUVER (CP)—Mr. Justice A. D. Macfarlane, in the B.C. Supreme Court here Wednesday approved settlement of \$694.85 damages for injuries suffered by Sharon Joy West of Kelowna, earlier this year.

The girl was a passenger in a Western Canada Greyhound Lines Ltd. bus which left the road between Westbank and Peachland in the Okanagan district. The settlement was offered by the company and Anton Bach of Penticton, driver.

## Leckie To Give Leadership In Canada's Air Cadet Movement

OTTAWA—Hon. Brooke Claxton, Minister of National Defence, today announced that Air Marshal Robert Leckie, C.B., D.S.O., D.S.C., D.F.C., who will retire as Chief of the Air Staff of the R.C.A.F. Sept. 1, has agreed to devote much of his time to the air cadet movement, an organization in which he is keenly interested.

The minister stated the R.C.A.F. is greatly interested in the welfare of the Air Cadet League of Canada, which he termed a "vigorous, young movement." Experience has shown, he said, the need for a senior officer to form a connecting link between the Air Cadet League and the service. In that capacity Air Marshal Leckie will advise both the league and the minister on matters appertaining to the welfare of the boys themselves, and to the success of the move-

## Spires Of Snowy Canvas Punctuate Sky

Running close hauled into a Lake Michigan breeze, this half-dozen yachts of Universal and "Q" class picket fence the cotton-studded sky in a recent Chicago regatta.

## Acorns Connect For Seven Homers To Thump Angels

The Pacific Coast League-leading Los Angeles Angels were slaughtered, 21 to 8, last night by their own favorite weapon, the home run, as the power-laden Oakland team came to life with a bang in the sixth inning.

The Oaks hit seven home runs. One was with the sacks loaded in their big sixth inning in which nine runs crossed the plate. Will Haffey, pinch-hitting for shortstop Mickey Burnett, hit the grand slam wallop. Charley Workman and Glenn Crawford hit two homers apiece and Herschel Martin and Nick Elten, the ex-Yankees, hit one each. After trailing 8 to 2 going into the sixth, the Acorns tallied 19 runs in three innings.

Angel pitcher Red Lynn was the victim of the Oakland tornado.

## CHESNES WINS

San Francisco's Bob Chesnes, out of service for three weeks with a sore arm, came back to chalk up his 18th win of the season as his Seals won their second straight game from Hollywood, 5 to 3. The Seal hitting was led by Don White with a homer and a single and Joe Brovia with two doubles and a single.

Portland evened its series with Sacramento at one apiece by trouncing the Solons 5 to 1. The Beavers got their winning runs, four of them, in the fifth. Pitcher Mel Clemensen walked one in when the bases were filled. Herm Reich's double scored two more and another came home on Harvey Storey's deep fly.

## GYSELMAN STEALS HOME

The Seattle Rainiers staved off a late San Diego rally to win, 6 to 5. Dick Gyselman, purchased by the Rainiers from San Diego Tuesday, tripled in the seventh and then stole home for the winning run. The Padres outbit the Rainiers 15 to 12, but five San Diego errors helped Guy

## Spencers Deadlock Cricket Series

Spencers' cricket team deadlocked their current series with Colts yesterday at two games apiece, when they captured the match played at Windsor Park, 111 to 47.

Batting star of the game was Pritchard of Spencers, who garnered 25 runs, while Oakman got six wickets for 19 runs. Hoppenstall was tops for losers, making a total of 18 runs. Final game of the series will be played at Windsor Park next Wednesday when both squads will be at full strength in an effort to capture the deciding match.

## Ontario Bowlers Pay Good-Will Visit Here

At 2 this afternoon, a group of lawn bowlers from Ontario participated in a match at Beacon Hill and tomorrow they will engage members of the Victoria Lawn Bowling Club in three matches at the Canadian Pacific greens, before heading homeward after a good-will tour of western Canada.

Mayor Percy George was at the docks to greet members as they stepped off the boat this morning, following which they went for a tour of the city. The city lawn bowling association were hosts at a luncheon at the Empress Hotel for the visitors today.

## Scottish Ice Hockey League Plans To Use Canadian Players

FAIRFAX, Scotland (CP) — Festus Moffat, secretary of the Scottish Ice Hockey Association, said today his organization has agreed to transfer its players in future through the British Ice Hockey Association, and Canadian players for the Scottish League would sail from Canada Aug. 27 and Sept. 6.

Moffat said he had a telephone conversation with Claude Kewley of Toronto, Scottish League representative in Canada, and had assured him the S.I.H.A. was willing to handle transfers in this manner.

(The Canadian Amateur Hockey Association had decided previously not to sanction Canadian players going to Scottish teams this season after the B.I.H.A. had declared no privileges would be granted to the Scottish League unless it joined with the B.I.H.A.)

(This was in accordance with a resolution passed at the International Ice Hockey Federation executive meeting at Quebec in May, attended by C.A.H.A. and American Hockey Association officials.)

## Burrards Take Lead In Mainland Boxla

NEW WESTMINSTER, B.C. (CP) — Vancouver Burrards moved one game up on New Westminster Salmonbellies as they defeated the Bellies 22 to 10 in the third game of the current best-of-five intercity box lacrosse finals last night.

Salmonbellies won the first 10 to 1 and Burrards the second 14 to 9. Leading the Burrard attack were Ernest Smith with five goals, Harry Buchanan and Earl Macdonald each with three. Standouts for the Salmonbellies were Harry Carter with three and Alf Wood with two.

## Gun Club To Hold Bi-Monthly Shoot

Regular bi-monthly shoot of the Victoria Gun Club will be held at the Albert Head range Sunday at 1. Marksmen will compete in the C.I.L. Shield skeet and the Colonist Cup trap shoot.

Last week Russ Horton, a member of the local squad, came home with top honors in the 100 singles event in the invitation shoot held at Edmonds, Wash. This week-end a number of local club members will journey to New Westminster to take part in the Fraser Valley trap and skeet shoot championships.

## Cards Edge Dodgers To Stay In Pennant Fight

The baseball world was agog today over the spirit of St. Louis—that indomitable Cardinal spirit which makes the Redbirds one of the most feared and respected clubs in competition.

The 25,762 Ebbets Field fans still could not fathom how the Cardinals, on the brink of defeat on two separate occasions, could have climbed back to defeat the league-leading Brooklyn Dodgers, 3 to 2, in 12 furious innings yesterday and cut the Brooks' margin back to 4½ games. A home run by Whitey Kurowski broke up the game in the 12th.

The third-place Boston Braves Senators, 4 to 3 and 7 to 6, the first going 12 innings and the second 10.

Boston-St. Louis, postponed, rain.

## YANKS IN RALLY

Overcoming a 13 to 5 Detroit lead after the Tigers had scored nine runs in the seventh inning, New York Yankees came on to win, 14 to 13, in 11 innings, winning in the 11th on a single by Johnny Lindell and a double by Phil Rizzuto.

Philadelphia Athletics scored a tying run in the ninth and added three more in the top of the 10th to defeat the White Sox in Chicago, 5 to 2. Ferris Fain and Sam Chapman singled in the winning runs.

Cleveland Indians swept a doubleheader from Washington

## Vets Whip Pitzer And Nex To Gain Rithet Cup Final

Bob Weigand's Canadian Legion baseball squad entered the Rithet Cup finals last night, when they turned back a fighting Pitzer and Nex crew, 8 to 4. Legion gained the right to meet the winner of the Navy-Eagles series in the best-of-five finals for possession of the silverware.

Tonight at Athletic Park, Navy and Eagles will square off in the third game of their series with Eagles holding a one-game edge. The first game ended in a deadlock. Game time is 6.30.

Winners scored all their runs off Murray MacArthur before he retired in favor of manager Roy McLellan in the eighth. MacArthur's only drawback was his wildness and that coupled with some good clutch hitting by Legion cost him the contest. MacArthur issued seven free passes and was charged with four wild pitches. He gave up seven base hits and fanned six. All eight runs were earned as losers played errorless ball.

Pitzer and Nex were only able to get one man as far as third off the offerings of Frank Scroggs until the seventh frame when they counted a pair. They added two in the eighth.

One hit, two walks, and a fielder's choice gave Legion a pair in the fifth and they added three more in the sixth when MacArthur was guilty of three wild tosses. Losers made it 5 to 2 in the last of the seventh when Jimmy John opened with a single and Glenn Charlton clouted a long triple to right centre. Reyn-

## Off To A Good Start

Pete Reiser congratulates Jackie Robinson as the Brooklyn first baseman crosses home plate after a homer in the first game of the recent "crucial" series between the Dodgers and Cardinals. Brooklyn eventually won this game but the Cardinals came back to square the series.

## Sports Mirror

By "SONNY" WALKER

FOR THE FIRST TIME this season, Manager Ted Norbert of the A's has his pitching staff working in a definite system of rotation and judging by the results of the past home stand the policy is paying off handsomely. Bill Woop, Dick Mitchell, Len Kasparovitch and Joe Blankenship make up the regular four with Bob Jensen stepping in for his turn when the schedule gets too tough. Jim Arnold and Ray Fortier have been coming up with some swell relief jobs in their new roles. The story of Blankenship moving into the starting assignments is one the entire club is proud of. Last season and during the start of this campaign Blankenship toiled magnificently in relief roles, then, when the club ran into hurling troubles in mid-season he was given his chance and responded nobly.

WITH THE CLUB getting the good pitching of the last 10 days, the possibility of the Western International League pennant flying from Athletic Park looms closer. Of course one cannot sell the other top-place clubs in the league short. Caplanos are dynamite in their own park, that short right field fence proving ideal for their left-handed sluggers. Bremerton is another aggregation that is tough at home. Salem has one of the best-balanced clubs in the league and a first-class hurling corps as well. In speaking of home parks favoring certain clubs it cannot be overlooked that the Athletics also play their best ball in their own back yard, and in that respect the remainder of the schedule is slightly in favor of the club, half of its games being here.

WITH SELECTIONS soon to be made for places on the league's mythical all-star team, interest naturally settles on just how many of the Athletics will be named to the squad's first and second nines. Dick Mitchell on the strength of his many fine performances is almost a certainty to be picked. Though Leo Righetti is not batting at any fancy figure, the kind of key-stone play he has been turning in during the past month is the best in the league. Jack Harshman, the loop's long-ball blaster and tops in nearly all slugging departments, will receive many votes for first base. Johnny Hooper and Bill White will both be well up in the race for outfield berths.

FIRST CHOICE for catcher naturally settles on Tacoma's Earl Kuper whose play behind the plate and trustiness with the willow have been the one bright spot in Tacoma's otherwise dismal season. Vic Mastro, in his first full season as a receiver, is steadily improving but lack of experience will hamper him from gaining selection to the all-stars. Bill Woop and Joe Blankenship can enter the race for pitching berths if they continue their stellar work in the last few weeks of the season.

## Junior Tennis Championships Start Monday

Vancouver Island junior tennis championships will be held at the Victoria Lawn Tennis Club courts, Monday, Tuesday and Wednesday, and anyone wishing to enter is asked to send in their entry immediately. Information may be obtained at the club before 7 in the evening or by phoning G 4266, after 8.

Under 18 section has on hand a number of entries, but the doubles events in the under 15 group is still lacking sufficient applications. Entries must be in before 6, tomorrow. Players are instructed to be at the club ready to play at 11, Monday morning.

## Track Championships Slated For Nanaimo On Labor Day

Women's B.C. championships and the men's open track and field meet, sponsored by the Nanaimo Native Sons Association, will be held at the Central Sports Grounds at Nanaimo, Labor Day.

Closing date for entries is Aug. 27, and entrants are asked to send their applications to Secretary Henry Reifel, 412 Dunsmuir Street, Nanaimo.

Events will be grouped as follows: Senior men, 19 and over; junior boys, under 19 on date of meet; senior girls, under 17 on date of meet; junior girls, under 17 on date of meet.

## Errors Prove Costly As Caplanos Triumph

Victoria Athletics really cooled off last night to hand Vancouver Caplanos the fourth game of their inter-city "little world series," 12 to 7. Although the visitors came up with 16 hits off the combined offerings of four Victoria pitchers, they were dished up the win on the proverbial platter as the A's booted the ball five times to give up as many unearned runs. Result left the Athletics with a three-to-one bulge in the series as the clubs move to Vancouver, where they resume tonight.

Continuing to work his pitching staff in regular rotation, Manager Ted Norbert will send big Bob Jensen to the mound for the first game in Bob Brown's band box. Bob Hall is scheduled to go for the Caps. Bill Woop will work for the A's Friday, with Lenny Kasparovitch and Dick Mitchell handling the double-header Saturday. A's return home Monday night for a week's stand against Bremerton and Tacoma.

Last night's defeat dropped the A's back into fourth position, two and a half games ahead of Vancouver. Salem split a double bill to edge ahead of the A's.

## COSTLY BOBBLE

A bad error, by shortstop Johnny Cavalli on a perfect throw to second by first sacker Jack Harshman for what would have been the third out cost the A's five runs in the fifth inning.

Vancouver had scored two runs up to the error and Victoria still enjoyed a 4 to 3 margin. It was a heartbreaker, as Harshman had made a beautiful play on Stump's ground smash to apparently end Vancouver's threat. Taking advantage of the "bobble," Tran, Hedgecock and Jonas followed with singles, the latter getting his blow off Jim Arnold, who took over from starter Joe Blankenship after the sixth run scored.

Second baseman Leo Righetti kicked another ground ball for the third error of the inning and the seventh run before Arnold got the side out.

Although Blankenship did not appear as sharp as usual, he might have weathered the storm, with any kind of support. Arnold, who gave up two more runs in the sixth on Bill Reese's home run with one aboard, gave way for a pinch hitter and Ray Fortier took over in the seventh. He was relieved in the eighth after hurting his throwing arm and Kasparovitch, who turned in a winning performance the previous night, went through the motions to the finish.

## MASTRO HITS BALL

Athletics got themselves 10 hits off stoppaw Jim Hedgecock, who received credit for his ninth straight victory. Catcher Vic Mastro had himself a big night with a home run in the fourth along with a double and triple.

Hedgecock struck out 10 but gave up six walks which caused him most of his trouble. Caplanos took the field with a makeshift line-up, outfielder Paul Carpenter filling in at second base owing to the absence of Leon Mohr, who jumped the club in the afternoon. President Bob Brown of the Vancouver team said no action had been taken against Mohr as yet owing to the fact he had been unable to locate the second baseman. Mohr was on option to Vancouver from the Seattle Rainiers. Jonas, a pitcher, who took over Carpenter's position in left field paced the Vancouver club at the plate with four for six, all line singles.

## SPOKANE BACK IN LEAD

Bremerton lost the league lead to Spokane last night when they were nipped 7 to 5 by Tacoma Tigers in an extra-inning game. Spokane meanwhile moved back into the first spot on the strength of a slim 2 to 1 victory over Wenatchee Chiefs in 12 innings. Spencer Harris, who has taken over the reigns of the Yakima Stars led the club to a split in their twin bill with Salem, Stars lost the first game 4 to 3 but came back to take the nine inning encounter 4 to 1.

**First Game—**  
Yakima 7 5 1  
Salem 3 4 0  
(Seven innings)

## Charges Fire Engine Delay On Pt. Ellice Bridge Raised Damage

The charge that further fire damage was caused to his home at 610 Pine Street on June 6 because fire engines had to slow down crossing Point Ellice bridge was made in a letter to the City Council today from Wm. Caley. Mr. Caley paid high tribute to the excellent and efficient work of the fire department once it got on the scene of the fire and credited the firemen for saving his home from being a complete loss.

Fire Chief Joseph Raymond today said that all drivers on the fire engines had instructions to obey the 10-mile-an-hour speed limit on Point Ellice bridge, although they can ignore other speed limits on city streets en route to a fire, so long as they remain within the margin of safety. He estimated that one or

two minutes could be lost in getting to the scene of a fire in Victoria West when it is necessary to use Point Ellice bridge. He said, that so far as possible, Johnson Street bridge is used by the fire department, but when the warning signal is given that the bridge is up they must use Point Ellice.

Mr. Caley also asked that the fire hall be reopened in Victoria West for the protection of citizens there.

Fire Chief Raymond said that the Victoria West fire hall had been closed when the firemen's work week was reduced from 72 hours to 60 per week. He said that in his opinion it would have to be reopened at some time as the district became more heavily populated and developed but he would not recommend it as a necessity at the present time.

## Canal Front Quiet As Seamen's Strike Appears Called Off

CORNWALL, Ont. (CP) — Cornwall's mile-long canal waterfront area was quiet today and watchful authorities expected no activity in the threatened Great Lakes shipping strike until conclusion of meetings in Ottawa between representatives of the Canadian Seamen's Union (T.C.U.) and Labor Department officials.

Represented at the meeting were the Canadian Seamen's Union and its rival, the Canadian Lake Seamen's Union, along with officials of three major shipping companies, Canada Steamship Lines, Colonial Steamships Ltd. and Sarnia Steamships Ltd.

A tip-off that the strike was due to be called Wednesday night failed to materialize and was quickly denied by representatives of the C.S.U. which is engaged in a dispute with three lake shipping companies over an agreement signed last September and has threatened a strike.

Meanwhile in magistrate's court this morning William Costello of Montreal was fined \$10 and costs on a reduced charge of common assault. A charge of taking part in the incident was withdrawn against Raymond Gauthier, also of Montreal.

The charges resulted from an affray in Cornwall's Central Park Tuesday night shortly after two bus loads of men identifying themselves as connected with the Canadian Lake Seamen's Union, had arrived in the city to reinforce 100 already here.

The C.S.U. men have been quoted as saying that should the C.S.U. seamen strike, they have been instructed to take their places aboard ships and make sure the ships get passage through the canal.

## Overnights At Hastings

VANCOUVER (CP)—Hastings Park entries Ascot Jockey Club meeting Friday Aug. 22:

First race—Claiming, \$800, three-year-olds and up, six furlongs and 165 yards:

\*Cadet Cliff (Johnson) 116  
\*Shaganapp (Sporri) 111  
\*Sun Madras (Athey) 121  
\*Duddingston (Bovine) 111  
\*Rimona B (Nowell) 111  
\*Noble Knight (Robertson) 111  
\*Frenchie (Noffsinger) 121  
\*Somers Band (Christensen) 116

Also eligible:

\*Miss Nimba (Sporri) 111  
\*A. Help (A. J. Vilches) 106  
\*Ashes Only (No Boy) 116  
\*Little Pekoe (Connell) 116  
\*Yamaru (No Boy) 111  
\*Plucky Boss (No Boy) 116  
\*George Somers (No Boy) 111  
\*Whiffle Waffle (No Boy) 111  
\*Miss Betty B (No Boy) 111

Also eligible to be used if necessary for extra race.

Second race—Allowance, \$800, three-year-olds and up, seven furlongs:

\*Audrito (No Boy) 110  
\*Howdy Easter (Noffsinger) 115  
\*Sea Fiddler (Sporri) 115  
\*Assayer (Robertson) 110  
\*Jennys Lass (No Boy) 97  
\*Mad Apple (Connell) 114  
\*Blancian (Christensen) 120  
\*Lady Playfair (No Boy) 115

Also eligible:

\*Pondo Py (Bovine) 107  
\*Lady Glinger (No Boy) 102  
\*Association (Johnson) 115

Third race—Allowance, \$800, two-year-olds, five furlongs:

\*Onda Vorta (A. Vilches) 119  
\*Calfurnace (No Boy) 122  
\*Beth Act (No Boy) 112  
\*Briar Pat (Sporri) 115  
\*Salt Tar (Christensen) 115  
\*Fairliner (Connell) 110  
\*Foxy Sir (No Boy) 117  
\*Peaceful Jane (Johnson) 107

Also eligible:

\*Starthlegend (Robertson) 114  
\*Northfield (No Boy) 115  
\*Brighton Upton (Johnson) 115  
\*Coltrance (No Boy) 122

\*Mrs. L. Copenhagen entry.

Fourth race—Claiming, \$800, three-year-olds and up, seven furlongs:

\*Miss Exilda (A. J. Vilches) 110  
\*Miss Jamaica (Cummings) 111  
\*Hazelgreen (Noffsinger) 116  
\*Kelowna Belle (Sporri) 111  
\*Jazzing Jean (Robertson) 106  
\*Slateford (Johnson) 106  
\*Brilliant Help (No Boy) 111  
\*Fifth Race—Allowance, \$800, three-year-olds, seven furlongs:

\*King of War (Sporri) 118  
\*Gala Hat (Connell) 115  
\*His Brother Johnson) 111  
\*Row River (Cummings) 118  
\*Cotton Eye (A. Vilches) 113  
\*Sixth Race—Claiming, \$1,000, three-year-olds and up, seven furlongs:

\*Pacoima Brave (Johnson) 109  
\*Elorada (Sporri) 107  
\*Worth Silver (No Boy) 116  
\*Peruse (No Boy) 109  
\*Hi Meadows (Bovine) 111  
\*Pompom (Robertson) 116  
\*Witches Taxi (Neal) 111  
\*Keeny (A. Vilches) 109

Also eligible:

\*Chief Lon (Christensen) 113  
\*Time Out (A. Vilches) 117  
\*Gene S (No Boy) 114  
\*Seventh race—Allowance \$1,000, three-year-olds and up, seven furlongs:

\*Koraway (Neal) 113  
\*Gay Guy (Bovine) 113  
\*King's Honor (Miller) 113  
\*Machrina Bo (Johnson) 111  
\*Gallamar (Christensen) 111  
\*Charloelle (Sporri) 107

Eighth race—Claiming \$800, three-year-olds and up, one mile and one-sixteenth:

\*Ascot Maid (Connell) 110  
\*Speed Shaver (Atkinson) 115  
\*Galamond (No Boy) 110  
\*Ex Libris (Johnson) 110  
\*Tailpat (No Boy) 110  
\*Ocean Moon (No Boy) 110  
\*Flak Happy (Nowell) 120  
\*High Brow (A. J. Vilches) 115

Also eligible:

\*Pretty Sweet (Bovine) 107  
\*Iron Plunger (A. J. Vilches) 115  
\*Brown Earth (Bowman) 110  
\*Western Bomber (No Boy) 104  
\*Apprentice allowance claimed.

## Emergency Housing In Army Camps Not Under Rent Control

The City Council has been informed by Central Mortgage and Housing Corporation that certain emergency shelter projects, in which the city is interested, are exempted from rent control according to recent order of the Wartime Prices and Trade Board.

In the order, which was passed specifically to cover the Victoria situation, it is stated that in view of the temporary and emergent nature of these projects, and the anticipated turnover of tenants which may necessitate frequent reallocation of space to accommodate families of varying sizes it is desirable that the municipality be able to fix its own rentals, and also be able to terminate any lease.

So long as the city of Victoria is known as the landlord the housing accommodation at the following camps is exempt from the rental control: Macaulay camp, 83 units; Colwood camp, 60 units; Moresby House, 20 units; Gordon Head camp, 225 units; Balmoral House, 44 units; Clover Point camp, three units, and Songhees camp, 30 units.

## Reservists Here On Destroyers

Two fleetline U.S. destroyers, the U.S.S. Lofberg and the U.S.S. John W. Thomason, arrived in Victoria today as part of the U.S. Navy's intensified reserve training program.

At H.M.C.S. Naden docks to greet the two U.S. warships was the Royal Canadian Navy chief of staff for Pacific Command, Cmdr. R. A. Webber. He boarded the Lofberg to greet Cmdr. J. H. Hesson, U.S.N., commanding the Lofberg, and Lieut. Cmdr. G. Gemmill, commanding the John W. Thomason. Also aboard the Lofberg was Cmdr. R. Jackson, R.C.N.R., who boarded the vessel to bring her into port.

The two destroyers left Seattle Sunday with 282 naval reservists and 389 ship's officers and men aboard. It was the largest group of naval reserve trainees to participate in a training cruise since the war.

While under way on the first of a scheduled itinerary of cruises to San Francisco and Victoria, the two ships participated in various training drills and manoeuvres. Upon arrival at Treasure Island, the Thomason and Lofberg played host to more than 300 San Francisco newsmen who were given a guided tour aboard the two ships.

Leaving the bay region, the destroyers proceeded to a firing area off Cape Flattery for firing practice. Upon conclusion of the practice, the ships anchored off Neah Bay on Wednesday evening and sailed for Victoria this morning.

Cmdr. Wesson said the reservists had shaped up very well during their trip, but added a good many had been seasick during the heavy weather they encountered on their way up here.

While here, the officers, chief petty officers and the petty officers will be entertained by members of the R.C.N.

The two destroyers will return to Seattle Saturday morning.

## Munro To Address Canadian Club Here

Ross Munro, Canadian Press war correspondent and author, will address a meeting of the Canadian Club Friday afternoon at the Empress Hotel on "The Russian Question and European Affairs."

Mr. Munro is a graduate of the University of Toronto. He joined the Canadian Press in 1936 and crossed the Atlantic in one of the 50 destroyers turned over to Great Britain by the U.S.

He was the only war correspondent on the Spitsbergen raid six years ago this month and was one of three correspondents in the Dieppe raid.

He was in North Africa in 1943 and landed with the Canadians in Normandy on D-Day, and followed the Canadian Army through to Germany.

He has traveled more than 80,000 miles in two years, visiting 10 countries and has covered such assignments as the Paris Peace Conference, the Polish elections, the Moscow Foreign Ministers' Conference, and the German-Austrian peace terms.

On completion of this tour he will be assigned to the International Affairs Department of the Canadian Press at Ottawa.

## In Permanent Force

Cmdr. Keith C. Cooper, R.C.N. son of Mr. and Mrs. Charles C. Cooper, 2842 The Rise, who has been transferred to the permanent force. He has been secretary to naval staff for the past three and a half years at headquarters. He was previously on the staff of the Empress Hotel.

## Milk Report Here Expected Shortly

E. C. Carr, spokesman B.C. milk controller, said here today that it was expected a report being made by Ismay, Bolton, Dunn & Co., Victoria chartered accountants, into distribution costs of Victoria dairies would be handed to him shortly.

What action the board will take on the report when it is available, Mr. Carr could not suggest.

Mr. Carr said at the present time there were no applications before the board asking for extension of the board's control over milk production and distribution.

## Passion Flowers Bloom In Victoria

A passion flower, which blooms for two days, was brought to the Victoria Times office Wednesday by Mr. and Mrs. Eric C. Jamieson, 1724 Cook Street. There are but four passion plants in Victoria and they do not bloom until the second year. Fruits from the plants grown in this latitude are not edible.

The early Spaniards and Italians were great admirers of the passion flower. Its 10 colored parts, including the petals and sepals, represented to them the 10 apostles present at the Crucifixion. Peter and Judas being absent, Mr. Jamieson said. In the centre there are a large number of filaments which represented to some the crown of thorns and to others a halo about Christ's head. There are five stamens to suggest the five wounds which He received, one through each hand and foot and one in the side. The three sections of the pistil typified the three nails, one through each hand and one through both feet. The stamens and pistil being upon a column, this structure suggested the column to which He was tied to be scourged by the whips which found their symbolism in the tendrils. The leaves of some sorts are three-lobed. These stood for the Trinity. Other species have more than three-lobed leaves; such leaves appeared to be the fingers of the hands of the persecutors.

## Laboratory Explains Best Way To Kill Off Wasps, Hornets

The Dominion entomology laboratory here today told Victorians, many of whom have been plagued with wasps and hornets this summer, of a simple way to exterminate the insects.

Rather than the old-fashioned way of burning the nests with a kerosene-soaked rag on the end of a pole or sprinkling cyanide around, the laboratory said persons worried by wasps and hornets should throw a handful of derris powder in the opening wasps or hornets use to get to their nests. The chemical is fatal to whole wasp colonies within 24 hours.

"Everyone is aware of the difficulty of dealing with a wasp nest built in the wall of a building, often in the wall of the front porch or step," W. Downes, formerly of the laboratory here has written. "In such a case all that is necessary is to throw a handful of derris powder in the crack where the wasps emerge and, if it can be made to lodge in the opening, so that the wasps will get some of it on their bodies as they pass through, the insects will generally be exterminated within 24 hours."

A handful of the powder is ample, although sometimes it is necessary to plug alternative exits from the nest so that the wasps will be forced to walk over the derris to get out. It is sometimes necessary to build a ledge near the opening to hold the derris in position so that the wasps will come in contact with it.

White-faced hornets are somewhat more resistant to the powder than wasps but Mr. Downes reported he had destroyed a colony of them in a cherry tree within 24 hours by merely throwing a handful of derris into the opening in the side of the nest.

## Only 1 Company From Island Listed

Only one Vancouver Island company, Sunny Brae Co. Ltd., Duncan, capitalized at \$50,000, was registered at Parliament Buildings during the week ended Wednesday under the Companies Act.

Other new registrations were:

From Vancouver — Day Holdings Ltd., \$25,000; Bennett's Food Centre Ltd., \$10,000; A. and B. Holdings Co. Ltd., \$20,000 and 5,000 shares, no par value; Aerocrete Construction Co. Under the Societies Act, the following firms were registered: Campbell River Memorial Recreation and Youth Centre, Campbell River; The Canadian Temple of the More Abundant Life, Vancouver, and Milner Community Association, Milner.

## B.C.E.R. Asks To Be Relieved Of Costs

The city has been asked by the Board of Transport Commissioners to file a submission in connection with the B.C. Electric Railway Company application to be relieved of the responsibility of helping to maintain the interlocker gates at the level crossing of the E. and N. Railway at Esquimalt Road and Russell Street.

Officials of the B.C.E.R. explained that they had made the application because the street cars are no longer using the tracks which cross the E. and N. at that point. The company was compelled in the past to share with the E. and N. and the city the cost of maintaining the gates because it was an intersection of two railways. The bus route, which replaced the street cars, does not cross the railroad tracks at this point.

## R. J. Saunders Named Playground Chairman

R. J. Saunders was elected chairman of Rainbow playground at a meeting of the playground committee held recently.

Others elected to positions on the executive for the ensuing year were Mrs. G. W. Sonner, vice-chairman; F. Garrington, secretary; Mrs. J. Kirby, corresponding secretary; Mrs. R. Wooten, treasurer; Mrs. L. Green, refreshments; N. Whitney, grounds; Mrs. J. Rodgers, social and entertainment; G. W. Sonner, equipment; Mac Rogers, sports convener, and A. T. Stilwell, ways and means.

The retiring chairman was thanked by Mac Rogers and presented with a corsage by Mrs. J. Daly on behalf of the committee.

In a mothers softball, Rainbow team defeated Tolmie playground 19 to 8.

## Funeral Friday Of Old-Time Resident

Funeral services will be held at Hayward's B.C. Funeral Parlor Friday, at 3, for Mrs. Eunice Adeline Temple, for 40 years a resident of Victoria, who passed away in St. Joseph's Hospital, Tuesday.

Mrs. Temple was born in Allenford, Bruce County, Ont., in 1864, and went to Manitoba in 1885 with her husband, John Temple, who predeceased her 20 years ago. Mr. Temple was a prominent contractor in Manitoba before leaving the province. Mrs. Temple was the first woman in Hartney, Man., from which she moved with her husband and family in 1900, to take up residence at Grand Forks, B.C. While in Grand Forks, Mr. Temple owned and operated the Grand Forks and the Granby Hotels, leaving there in 1908 to reside in Victoria, where for many years he was proprietor of the Old Canada Hotel, Johnson and Broad Streets.

## Wismar To Get Details Of Douk. Fires Friday

Report of the B.C. Police into the fires in the Doukhobor areas of B.C., apparently set by arsonists, is expected to be handed to Attorney-General Gordon S. Wismar Friday, it was learned here today.

Police have made special investigations into the reports of violence which has seen destruction of homes and community buildings by fire. According to reports from the interior, Doukhobors working in lumber camps and other industries have left their jobs to protect their homes.

## Town Topics

An offer by the Capital Iron and Metals Ltd., Victoria, to buy up the streetcar rails in Oak Bay was referred Wednesday night to the municipal lawyers by the council, which was doubtful of whether or not it owned the rails to sell.

A cigarette end carelessly discarded is believed to have caused a brush fire near the charred remains of Brentwood College. Saanich firefighters took three hours to quell the blaze. Saanich firemen were called out again yesterday to put out a brush fire at Oakmount Park, which caused damage to one and a half acres.

Directors of the Victoria and Island Publicity Bureau will be luncheon guests of the Gray Line at the Empress Hotel Tuesday. Mayor Percy George was informed today, to hear Col. Harry J. Dooly, president of Gray Line Association Inc. of Chicago, speak on development of tourist trade.

## Sailor Denies Charge Of Deserting Ship

Judgment will be handed down next Tuesday in Police Court in the case of Henry W. Kelly of Vancouver, charged with deserting the Canadian freighter Seaboard Queen at Holtenau, Kiel Canal, Germany, June 1. Facing similar charges are Kenneth O'Keefe and Donald J. Stewart.

The trial came to an end after Kelly had testified he had gone ashore at Holtenau, but not with the intentions of deserting his ship. He said he had gone ashore to get liquor for the crew, but failed to return in time to catch the ship which sailed for Finland.

According to the accused he made an attempt to catch the vessel in a launch but was unsuccessful. When the ship returned through the canal he was escorted aboard by a British frontier patrol.

## East Indians Here Given Domicile Rights

Granting of legal domicile rights in Canada to 210 East Indians resident in B.C., most of them on Vancouver Island, has come as a surprise to Victoria East Indians, it was learned here today.

According to Ottawa dispatches the East Indians, who entered the country illegally in pre-war years, will be granted full legal domicile rights under an order-in-council passed by the federal government.

Spokesman for the East Indians here said the East Indians on Vancouver Island had been expecting something would be done about their status but they did not expect it would come about so soon.

Result of the order-in-council means that East Indians, who previously had not been permitted to bring their wives and children to Canada, now will be extended this right. It is believed that nearly 100 of the 210 had been married in India.

## Divers Searching Lake For Body

Naval divers searched today for a body which provincial police believe to be at the bottom of the south end of Shawnigan Lake. The diving operations began following the taking of what is thought to be human hair found clinging to fishing gear near Ross Island a few days ago.

Constable Robert Ross, who reported the discovery to provincial police headquarters, said no one had been reported missing from the neighborhood recently.

Julia Ball, 5 Johnston Street, Masterton, New Zealand, has written Mayor Percy George, asking his assistance in getting a pen pal who is interested in collecting stamps.

**Victoria Dog Display Float For Vancouver**  
Victoria will be represented in the exhibition parade in Vancouver, Monday, by a dog display float to be entered by Mrs. H. N. Mellish of Heatherbelle Kennels of Victoria.  
The float will carry 21 champion and prize-winning pedigree dogs and 30 cups and other trophies, as well as 800 ribbons won in Canada and the United States.  
The float won a first prize and a special trophy in the May 24 parade in Victoria. There will be attendants to care for the animals on the float. Mrs. Mellish and her mother, Mrs. F. G. Harfield will be garbed in Scottish kilt and will be on the float.  
Mayor Percy George will officially close the series of summer concerts staged by the B.C. Electric Railway Co. at Beacon Hill Park Wednesday evening. This will be the final of a series of nine concerts.

## Packinghouse Union Endorses Strike Of 3,000 Workers

TORONTO (CP)—Three thousand members of the United Packinghouse Workers of America (C.I.O.) have been granted union permission to strike for higher wages at six plants of the Swift Canadian Co. Ltd. They seek a 15-cents-an-hour increase to bring the basic rate to 92½ cents an hour.

Publicity director John L. Lenglet announced Wednesday night the U.P.W.A.'s executive board had given its permission for the strike after members voted 2,322 to 37 in favor of a walkout. Union officials said the strike probably would not come this week.

Involved are 800 workers in Toronto, 700 each in St. Boniface, Man., and Edmonton; 400 in Moose Jaw, and 200 each in New Westminster, B.C., and Montreal, N.B.

The only Swift Canadian official who could be reached Wednesday night, Secretary Norman E. Landon, declined to comment on the union announcement.

Mr. Lenglet indicated the way still was open for a settlement without a strike. He said the union had made overtures for further wage talks with the company, but he added that if the company did not reply to the offer the negotiations would be broken off.

The U.P.W.A. is continuing negotiations with Canada Packers and Burns & Co. Ltd. Mr. Lenglet said the discussions with those firms "have been proceed-

## They'll Do It Every Time

HI, HENRY!—HOW'S YOUR PAL LUSHWELL FEELIN' TODAY? WE HAD TO PACK HIM OUT HERE ON A SHUTTER LAST NIGHT. WOW! WAS HE FRIED! SAY, DOESN'T THAT GUY EVER WORK? HE WAS PARKED AT THE BAR ALL DAY—WE OUGHT TO CHARGE HIM ROOM RENT—

HENRY'S PUTTING OUT MORE SIGNALS THAN A FLAGMAN—BUT THAT GABBY WAITER CAN'T CATCH ON. BIG DOME IS LUSHWELL'S BOSS

LUSHWELL CAN START LOOKING FOR ANOTHER JOB AS OF NOW—

THAT RUBBERLIP HAS TALKED ABOUT TEN COUPLES INTO THE DIVORCE COURT ALREADY—

WAITERS, LIKE LAWYERS, SHOULD CONSIDER SOME FACTS PURELY CONFIDENTIAL. Thanks to CAS ADAMS, PORT WASHINGTON, N.Y.

ing in a satisfactory manner."

"Swift Canadian has intimated that a wage increase is not justified," said Mr. Lenglet. "At the same time, the company has suggested withdrawing concessions granted in our last contract, which expired Aug. 1. The revision the company wants in the job rate would mean two cents an hour less. It would change the seniority provisions and also cut the guaranteed work week from 37½ to 36 hours."

Union officials hinted the next development in the situation might come from a meeting of the U.P.W.A.'s national policy committee to be held Sunday in

## \$75,000 Awarded For Cancer Research

TORONTO (CP)—The Ontario Cancer Treatment and Research Foundation has completed awards for 1947 totaling more than \$75,000 for cancer research in the province, it was announced today by Arthur R. Ford, chairman of the foundation.

The award-winning research is being conducted in medical schools and hospitals of Ontario. Since its incorporation a few years ago, the Ontario Cancer Foundation has disbursed more than \$190,000 in research grants, making possible a real assault on perplexing problems, both fundamental and clinical, in connection with the disease.

Several of the clinical investigations being financed by these grants are directed towards determining the practicability of applying to large population groups a recently-developed technique of diagnosing cancer by means of laboratory examination of certain body secretions.

The Mounties were dismounted when added war duties and the curtailment of recruiting dispersed personnel from the training depot and riding was removed from the training curriculum. Now two squads of recruits are put through their paces daily on horseback.

## R.C.M.P. Recruits Train With Horses

REGINA (CP)—Although recruits are in the saddle for the first time since war curtailed the use of horses at the R.C.M.P. training depot here, it will be at least a year, officials said, before the world-famous musical ride returns.

The Mounties were dismounted when added war duties and the curtailment of recruiting dispersed personnel from the training depot and riding was removed from the training curriculum. Now two squads of recruits are put through their paces daily on horseback.

## O.S.S.' Thrilling Screen Adventure

High adventure and thrills galore will sweep across the screen of the York Theatre today with the opening of Paramount's exciting Alan Ladd-Geraldine Fitzgerald co-starrer, "O.S.S."

"O.S.S." is filled with the kind of history-making incident that is only now being revealed to the public by the Office of Strategic Services. It is entertainment—with a capital "E"—from opening flicker to final fadeout. Not only does it have the kind of action that typifies Alan Ladd to countless thousands of fans, but it is the first picture to use factual wartime experiences of the heroic men and women in the intelligence service.

**DOMINION THEATRE**  
Elsa Lanchester, who has an important role in Republic's "Northwest Outpost," the Nelson Eddy-Iona Massey starrer, now showing at the Dominion Theatre, has very decided opinions on the subject of husbands and wives acting together.

"I'm very much opposed to husband and wife appearing in the same play or picture," she says. "Both Charles and I have avoided it as much as possible, because it makes for professional jealousies and inferior performances."

Miss Lanchester noted the exceptions to the rule in pointing out the fabulous successes of Alfred Lunt and Lynn Fontaine. "But they are the exceptions rather than the rule," she maintained.

**CAPITOL THEATRE**  
Betty Hutton had to kick Jackie, 400-pound movie lion, in the pants a half-dozen times to film a scene correctly for Paramount's Technicolor production, "The Perils of Pauline," currently at the Capitol Theatre.

The film co-stars John Lund with Betty, who plays fearless Pearl White, queen of the early serials.

After the booting was over, the Blonde Bombshell sent over to the studio commissary for a half gallon of ice cream for Jackie to show there were no hard feelings.

## Family Reunion To Honor Father

A happy reunion took place here when members of the Crossman family gathered to honor their father, William Crossman, 545 Griffiths Street, approaching his 90th birthday. The picture shows Mr. Crossman, seated, with three of his four sons and daughter. Left to right: Harold Crossman, Napier, New Zealand; Mrs. A. Edmonds, 523 Springfield Street, Victoria; Albert Crossman, Chicago, Ill., and James Crossman, 1140 Government Street, Victoria. Harold had not seen the family for 26 years; Albert for 22 years. Both brought their families with them. The eldest son, William, who lives in England, was unable to book passage across the Atlantic to attend the reunion.

## ROYAL THEATRE

Gene Tierney and George Sanders were rehearsing a kissing scene for Twentieth Century-Fox's "The Ghost and Mrs. Muir," when a hardly suppressed and definitely prolonged giggle smote their ears. The culprit was Gene's pretty younger sister, Pat Tierney, who apologized with:

"So sorry—you held that kiss so long it made me nervous."

Joseph L. Mankiewicz, director of the film, now at the Royal Theatre, turned, kidded Pat: "Nervous or envious?"

Pat fled from the set in confusion.

## Morfee New R.C.A.F. Air Plans Chief

OTTAWA—Hon. Brooke Claxton, Minister of National Defence, today announced the appointment of Air Vice-Marshal A. L. Morfee, C.B., C.B.E., as Air Member for Air Plans at R.C.A.F. headquarters, Ottawa, in place of Air Vice-Marshal W. A. Curtis, C.B., C.B.E., D.S.C., E.D., who is to succeed Air Marshal Robert Leckie as Chief of the Air Staff. The change will become effective Sept. 1.

**AIR VICE-MARSHAL**  
Morfee was previously Air Officer Commanding, Eastern Air Command, Halifax, but was posted to Ottawa headquarters early this year, when the R.C.A.F.'s five commands were reduced to two and the Eastern Air Command became No. 10 Group. As head of the Air Plans Division of the Air Force, he will be responsible for service and operational requirements, organization and establishments, and intelligence.

A native of London, Eng., A.V.M. Morfee came to Canada at the age of 15. He enlisted in the C.E.F. when 18, at London, Ont., and served in France with the 19th Canadian Infantry as a sergeant. He was wounded at Hill 70 and invalided to the United Kingdom, later being commissioned in the R.A.F., where he served as an observer. Following the war he returned to Canada.

## Fred MacMurray, Child Stars Hard On Movie Publicists

By BOB THOMAS

**HOLLYWOOD (AP)**—The claim most often voiced by press agents is that a client, even if a four-year-old, is "good copy." Not even the most zealous publicist would dare say that about Fred MacMurray.

Among Hollywood correspondents, MacMurray is notoriously "bad copy." A wealthy star who enjoys his leisure, he seems not to worry about publicity. We kid—"bad" about his newness on the "Miracle of the Bells" set and I asked why he refrained while others broke their necks to get their names in print.

His answer was like MacMurray—worldless. He merely placed his hand over his mouth in a "speak no evil" gesture.

MacMurray is one of the hazards of my job, but fortunately (I'm speaking from a newsstand-point), there aren't many like him. Nearly all stars are trained, as part of their profession, to talk glibly about themselves, and indeed, that is all that some of them can talk about. You get used to their various habits and adjust yourself accordingly.

Bob Hope, for example, is the fast-traveling interview. You usually get a good story after you wade through writers, and so on, and follow the comic around for an hour. Bing Crosby is much the same, though not so glib. Van Johnson is more of a sifter. He will stay in one place and talk to you about anything.

Humphrey Bogart is always available and if he doesn't have

a story for you, he'll make one up. He might even give you a "tough" act with it. Errol Flynn is also productive, always enacting the role of Errol Flynn.

## INTERVIEWS IN MIRRORS

The women have less leisure time on sets. They are usually interviewed in their dressing-room mirrors while they are being made up. Such stars as Irene Duane, Claudette Colbert and Ingrid Bergman, who are married to doctors and make but a few pictures, are generally non-productive for news, though charming. Betty Hutton, on the other hand, will knock herself to provide news, and Joan Crawford will do it in a more dignified manner.

Yes, it's pleasant work, but

there is one class of performers I can't go for—the child stars. I love the little tykes, but for news they're awful.

There are 136 kinds of snakes in North America.

## Home Building

### BUILDING SUPPLIES

#### HOME BUILDERS BARGAINS

**ASPHALT SHINGLES.** A special purchase enables us to offer black asphalt shingles. These are a very nice black and will give a lifetime of service without re-roofing or fading. Easy to apply; lower insurance rates. For new roofs or over your present cedar shingles. Price per square (100 sq. ft.) \$15.95. Large head roofing nails available with each purchase.

**CEGAR GRAIN SIDEWALL SHAKES.** Johns-Manville quality products, has the beauty of wood with graining in the natural, yet the strength of stone. Fireproof, permanent color, no painting or upkeep for a lifetime. Color Doves white only. Face nails included per square of 13-inch exposure (100 sq. ft.) \$15.10.

**INSULATED BRICK SIDING.** A veritable fortress against wind and weather. Appearance of real brick but with insulation equal to 6 inches of solid brick. Easy and quick to apply, no painting or upkeep.

Per carton of 48 sq. ft. \$8.25  
Cordier tiles, per lineal foot \$1.10  
Soldier course, per lineal foot \$1.10

**ACE TEX SHINGLE VARNISH.** A mixture of tar and creosote, fills cracks in old wood shingles, waterproof, penetrating and preserving, dries to a glossy black finish, nothing to touch it as an economical shingle dressing.

1 gallon cans, per gallon \$1.18  
5 gallon cans, per gallon \$5.95

**PLASTERING.** A fluid rock cement that contains asbestos fibres, burn it on cold from the can, renews old roofings.

1 gallon, per gallon \$1.25  
5 gallons, per gallon \$6.25

Pure Linseed Oil Shingle Stain, 5 gallon cans, per lineal foot \$2.90  
Green, per gallon \$2.90

See us for the selection in builders hardware, wallboards, drain tile, asbestos boards, palis, fence posts, etc.

**Land Registry Act**

Section 109

In THE MATTER OF lot 6 of Section  
74, Victoria District, Plan 304 except that  
part thereof taken for road purposes as  
shown on said plan.  
PROOF having been filed in my office  
of the loss of Certificate of Title No.  
151578-1 to the above mentioned land in  
the name of Evelyn Mary Russell Brown  
and bearing date the 27th day of April,  
1945.

I HEREBY GIVE NOTICE of my inten-  
tion, at the expiration of one calendar  
month from the first publication hereof,  
to issue to the said Evelyn Mary Russell  
Brown a Provisional Certificate of Inde-  
fensible Title in lieu of such lost certifi-  
cate.

ANY PERSON having any information  
with reference to such lost certificate of  
Title is requested to communicate with  
the undersigned.

DATED this 23rd day of June, 1947, at  
the Land Registry Office, Victoria, British  
Columbia.

R. C. N. HENDERSON,  
Deputy Registrar,  
Victoria Land Registration District.

**Painful Piles**

Here is a low cost, simple home  
medicine. It brings pain to the itching  
soreness and burning pain of piles.

It is a medical fact that piles come  
from causes INSIDE your body. They  
may need internal treatment. Hem-  
Roid is an internal medicine. Its med-  
ical action helps correct some of the  
internal conditions that cause such in-  
tense soreness and pain. Hem-Roid re-  
lieves constipation, wakes up your lazy  
liver and bile, eases the tormenting  
rectal irritation and helps heal the  
sore, painful pile tumors.

If you want quick and effective relief  
ask for Hem-Roid today at any drug  
store. It has helped thousands of pile  
sufferers. It should help you too. Try  
it now and see how quickly and easily  
you can relieve your pile misery.

ADVERTISE IN THE TIMES

**Lethbridge Chief Forced Him Out Magistrate Says**

CALGARY (CP)—The Calgary  
Albertan today in a newspaper  
story under a Lethbridge date-  
line said that Arthur Beaumont,  
former magistrate of Lethbridge  
in the letter to the Alberta At-  
torney-General in which he tendered  
his resignation, charged he had  
"been the subject of an intensive  
spying system," and singled out  
Chief of Police George Harvey  
as the man who had led the cam-  
paign against him.

Attorney-General Maynard an-  
nounced in Edmonton Wednes-  
day Magistrate Beaumont's resig-  
nation had been accepted.

The spark that touched off the  
trouble and investigation arose  
from alleged difficulties between  
the magistrate and George Yack-  
ulic, police court reporter of the  
Lethbridge Herald. The reporter  
claimed Magistrate Beaumont  
had barred him from the re-  
porter's quarters of the City  
Police courtroom and had re-  
fused to allow R.C.M.P. to hold  
court in the courthouse building.

In his letter to the Attorney-  
General, Mr. Beaumont stated:  
"It is plain to me that I have  
been the subject of an intensive  
spying system."

"There is no question in my  
mind that the chief of police is  
dissatisfied with me as a magis-  
trate because he cannot get con-  
victions in all the cases that he  
brings before me."

**Jap Girls Hasten To Wed G.I. Lovers**

YOKOHAMA (AP)—Eager  
little Japanese girls made an  
eleventh-hour rush to marry  
American husbands today and  
beat the deadline for entry into  
the "fabulous" United States.

Midnight tonight ends the one-  
month period during which the  
U.S. Congress lifted the ban on  
Japanese immigration to enable  
war veterans to marry and take  
home girls met in this occupied  
country.

In most cases, Nisei soldiers  
(American-born Japanese), were  
marrying the Japanese girls.  
About 550 girls are estimated  
to have wed since July 22 in  
Yokohama and Kobe to Ameri-  
cans eligible to return them to  
the United States.

Most of the brides don't know  
much about the U.S., but they  
expect to find:

"Choco spyen rayto, dansu,  
ice creamoo, mooby and reppo  
stick."

Translated from pidgin Eng-  
lish, that's chocolate, dance, ice  
cream, movies and lipstick.

**Alberta To Oppose French Radio Station**

EDMONTON (CP)—Alberta  
Works Minister Fallow said today  
vigorous opposition will be given  
by his government to an applica-  
tion to the board of governors of  
the Canadian Broadcasting Cor-  
poration for a commercial license  
for a French language radio sta-  
tion in the province.

The board will hold sittings in  
Calgary Sept. 17 to hear the ap-  
plication.

At the last session of the Legis-  
lature a resolution was adopted  
opposing a French language sta-  
tion in Alberta.

The resolution was passed  
after the provincial government  
had been refused a commercial  
radio license on the grounds that  
there were already adequate  
broadcasting facilities in Edmon-  
ton.

**St. Laurent May Head Delegation To U.N.**

OTTAWA (CP)—Composition  
of Canada's delegation to the  
United Nations' General As-  
sembly meeting in New York  
Sept. 16 likely will be announced  
by the end of this week or early  
next week, it was learned today.

It is expected External Affairs  
Minister St. Laurent will head  
the delegation, which probably  
will include representatives of  
the major political parties in the  
Commons.

The Assembly session is ex-  
pected to last about two months.

**Reds Accuse Yanks Of Rowdism In Vienna**

VIENNA (AP)—The Red Army  
newspaper Oesterreichische Zei-  
tung, under the headline "Ameri-  
can Wild West In Vienna," ac-  
scribed Wednesday what it  
termed "an increasing wave of  
excesses against the Austrian  
population by American soldiers."  
The paper said it was possible to  
print "only a small part of the  
flood of material available"—an  
attack with brass knuckles on a  
Roman Catholic priest by a man  
"in American uniform" and in-  
juries suffered by civilians hit by  
"wildly racing American jeeps."

**Finance Minister Gives New Zealand Balanced Budget**

AUCKLAND, N.Z. (CP)—Fi-  
nance Minister Walter Nash to-  
day presented a balanced budget  
for the coming year.

The budget showed few  
changes from the previous year,  
with minor alterations keeping  
taxes a little below New Zealand's  
wartime peak. The main tax  
change exempts persons with  
small, unearned incomes from the  
33 1/2 per cent super-tax.

Nash announced withdrawal or  
reduction of subsidies to stabilize  
the price levels of fruit, meat,  
bacon, oat meal, sugar, imported  
raw tobacco, tea and transport,  
but he said the stabilization policy  
would be maintained.

Subsidies will continue on  
bread, milk, butter and coal. To  
offset reduced subsidies, an age  
benefit, payable to all persons  
over 60 under the country's social  
security scheme, will be increased  
by 80 cents to \$7.20 weekly, with  
similar increases in war and  
other pensions.

Nash estimated total expendi-  
ture on social security during the  
current year at \$128,000,000,  
raised by a 7 1/2 per cent tax levied  
on all income, in addition to in-  
come tax plus \$51,000,000 from  
general taxation.

Rev. Arnold Nordmeyer, Minis-  
ter for Industries and Commerce,  
announced the government was  
consulting gasoline retailers and  
motoring interests with a view to  
reducing gasoline consumption  
voluntarily, to aid in dealing with  
the dollar shortage.

**Uncle Ray**

LA PAZ RIVALS LHASA  
AS WORLD'S HIGHEST  
CAPITAL CITY

Many maps mark the little city  
of Sucre as the capital of Bolivia.  
That place is, indeed, spoken of  
as the "legal capital," but the  
real capital today (often called the  
"de facto capital") is La Paz.

La Paz is the largest city in  
Bolivia, having 10 times as many  
people as Sucre. It is the place  
where the president lives, and  
where men meet to pass laws for  
the country. It has been the real  
Bolivian capital for half a cen-  
tury.

The name "La Paz" means  
"the peace."

Two leaders of Spanish sol-  
diers made peace there long ago.  
Spaniards had been fighting  
Spaniards instead of Indians, but  
they gave up the quarrel. For a  
long time the city went under the  
name of "Pueblo Nuevo de Nues-  
tra Señora de la Paz." The  
citizens who write letters must  
be glad to use a short name in-  
stead of such a long one.

Most persons in Bolivia, how-  
ever, have little reason to worry  
about that point. Eight out of  
10 of them never learned the art  
of writing!

There is a big Indian popula-  
tion in Bolivia. About 85 per  
cent of the people are full-  
blooded Indians, or mixed breeds.  
The Indians have been very slow  
about learning to read and write.

La Paz is another "high city"  
of South America. It is at the  
top of a valley, with lofty moun-  
tain peaks around it. The city is  
about two and one-third miles  
above sea level. It has been called  
"the highest capital city in the  
world," but it has a rival for  
that honor in Lhasa, the capital  
of Tibet. Both of these cities are  
a little under 12,000 feet in eleva-  
tion. The difference in their  
average height may be 30 feet  
or less.

Perhaps the question will be  
settled by "average height." Both  
cities slope, making them higher  
in some parts than in others. In  
the case of La Paz, the sloping is  
very strong, and the citizens find  
themselves "out of breath" as  
they climb the steep streets.

In any case La Paz is the high-  
est capital in South America. It  
is a third of a mile above the  
level of Quito, of which we spoke  
yesterday, and is the highest city  
of such size to be found any-  
where. The latest estimate gives  
it a population of 300,000, making  
about 12 times as many people  
as live in Lhasa.

**The DOCTOR Says:**

NERVOUS LOSS OF APPETITE  
By WILLIAM A. O'BRIEN, M.D.  
Extreme emaciation results  
from failure to eat sufficient  
food over a long period of time.  
The condition usually is the direct  
result of loss of appetite from  
nervous causes.  
Cause of the condition may be  
difficult to discover, because it

**PRISCILLA'S POP**

starts insidiously. The majority  
of patients are younger women,  
although men can develop it. The  
patient may have thought she  
was unattractive because of mild  
overweight and started a reduc-  
ing diet; following her weight  
loss, she discovered she now was  
attracting attention so she con-  
tinued to reduce until she lost all  
interest in food. Or it results  
from disappointment in love af-  
fairs or conflict with parents.

Appearance of patients with  
nervous loss of appetite is strik-  
ing, as they are practically skin  
and bones. In spite of their  
emaciated appearance (in some  
cases they drop from 120 to 60  
pounds) they have remarkable  
energy and are able to get about  
with ease. They spend hours  
grooming themselves and do not  
act as if they are ill. If the con-

dition is not corrected, death may  
result.  
Patients with nervous appetite  
loss in mild form will usually  
start eating after they have been  
given so-called "tonics" and en-  
couragement. In others, the ap-  
petite may be stimulated by in-  
jections of insulin administered  
just before mealtime.

Forced tube feeding may tem-  
porarily help, but if the funda-  
mental psychological cause is not  
treated, weight loss will start  
again as soon as the feeding is  
stopped. A few hunger strikers  
in jails have been forcibly fed  
but in the majority of cases this  
fails unless the principle at stake  
is recognized and corrected.

Psychiatric care is necessary  
for all patients with chronic loss  
of appetite, as the condition stems  
from a mental state. Relatives

often do not appreciate the cause  
of the patient's difficulty and  
continue to search for some  
stomach remedy to cure the  
malady.

Lack of appetite does not in-  
terfere with the absorption of  
digested food from the stomach  
and intestines. The average  
patient, who is below normal  
weight, can gain weight if he  
makes a conscientious effort to

eat more food. Most under-  
weight individuals are mild ex-  
amples of the same condition.

Question: My husband is un-  
der treatment for gout. Will he  
be cured?

Answer: Patients with gout  
may practically eliminate attacks  
and protect themselves from  
gouty arthritis if proper treat-  
ment is started promptly and  
continued.
